ANNUAL REPORT

REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Hubbardston:

The Selectmen organized with Theodore H. Curtis, Chairman; Richard Lyon, Jr., Clerk; and Robert Meagher, Member.

The Board met every other Monday night with numerous special meetings called as town business required.

The Board appeared at two hearings at the State House in Boston accompanied by our State Representative, Robert D. Wetmore. One hearing in which the Board was recorded as favoring involved the re-valuation of watershed land (of which the town has approximately 7,000 acres). The other bill for which the Board was favorably recorded dealt with the proposal advanced jointly by the Selectmen of Hubbardston, Rutland and Holden which would have had the State Department of Public Works assume care and control of Route 68 through these three towns.

The Board appreciates the assistance that Representative Wetmore gave to the Town on these bills and on other matters during the year.

The Board took action under Chapter 139, Secs. 1 and 124 of the General Laws (as amended in April 1966) to secure the removal of two dilapidated buildings which had become safety hazards.

The Board visited the Bureau of Accounts in Boston and reviewed with officials there financial items related to the Town.

Members of the Board have made several trips to the Department of Public Works in Worcester. These trips involved meetings with Highway Department officials, including Mr. Frederick Guerin, District Engineer. These meetings involved discussions on various highway matters including the commitment the Town voted in 1963 concerning Chapter 90 construction on Wachusett Rest Road.

In view of the fact that 1967 is Hubbardston's Bicentennial Year the Board especially urges your cooperation in helping to further beautify our Town. In anticipation of our celebration week, which will bring many visitors to Hubbardston, we urge you to help by removing old cars and junk from public view on your property. Let's work together to make 1967 a year to be particularly proud of our town.

The Selectmen wish to thank members of the various boards, committees and commissions for the service they have rendered the town.

Respectfully submitted,

Theodore H. Curtis
Robert Meagher
Richard Lyon, Jr.

1967 INSURANCE ACCOUNT

As a result of several meetings and discussions held jointly by the Board of Selectmen and Finance Board it was decided to set up a separate account that would include all town insurance coverage.

Therefore, each town department, except the school department, was asked to not include insurance as an item in their 1967 budget request and to reduce their tentative budgets by the amount originally set aside for insurance. The schools were not included because it was felt that a more favorable cost per pupil ration, as far as state reimbursement is concerned, would result from leaving the cost of insurance in the school budget.

However, most town insurance, including school fire and boiler insurance, has been placed in the hands of two agencies: Magnus A. Carlberg Insurance Agency of Gardner, and Healy Brothers Insurance Agency of Barre. Furthermore, all policies will be kept in the Selectmen's safe in the Library Building. Workmen's compensation insurance will still be carried with the Liberty Mutual Insurance Co.

It was felt that by centralizing all insurance coverage in one account that possible overlapping of insurance coverage would be done away with and greater efficiency with reduced cost would result.

REPORT OF THE TOWN COUNSEL

The Town Counsel respectfully presents a brief summary of 1966 legal business. More detailed information is available at any time on any particular subject upon request.

Conferences, Hearings, and Legal Advice in the work of Town Officers and Boards. Beginning with his appointment on March 28, 1966 the Counsel attended conferences with Officers and Boards of Officers and attended Hearings whenever any legal problem or legal interpretation seemed to be involved. Legal opinions were rendered as required, both orally and in writing. This service covered all ramifications of Town affairs and the legal questions affecting citizens and Town Officers, including the Selectmen, Board of Health and Planning Board.

Courts. The interests of the Town were protected in 1966 in cases involving the Town in the Superior Court and the District courts. All Court work during 1966 was concluded with results favorable to the Town.

State Authorities, including the Attorney General and the Director of Accounts. In 1966 the Counsel used a procedure of consulting with State Authorities, such as the Attorney General or the Director of Accounts, before important action was undertaken by Town Officers in any instance where it appeared that approval of any such State Authority would ultimately be necessary. In this way, the actions of the Town were synchronized with the State.

Legal Situation in 1966. When the Town Counsel was appointed on March 28, 1966, there were pending against the Town the following cases, which were brought to the attention of the Counsel:

Gabriel G. Morze vs. Town of Hubbardston
Robert A. Hills vs. Penrose Leadbetter and Town of Hubbardston
Town of Hubbardston vs. Robert Goodwin

The Morze case involves claims against the Town for \$340.00 in connection with the sale of certain lands under tax title procedures and this case is still pending in the Superior Court at the end of 1966. The Hills case involves an alleged accident on the highway, which is alleged to have taken place on February 2, 1965 and in this case the Town has been released of any responsibility as a defendant. The Goodwin case was disposed of during 1966 by a Decree of the Superior Court and is no longer pending.

During 1966 the Town Counsel brought three (3) new cases in the Superior Court as follows:

Town of Hubbardston vs. Lysander Jolly
Town of Hubbardston vs. Nelson Messier & Clyde Huntoon
Town of Hubbardston vs. Joel Sanborn & Norman Flebotte

These three cases were commenced to obtain injunctions of the Superior Court to remedy alleged violations by the several defendants of the requirements of the Board of Health, and the Sanitary Code. Before the end of 1966, these cases came up in the Superior Court and the defendants all agreed in writing to attempt to remedy the sanitary conditions at their respective premises on or before March 1, 1967 so as to conform with the requirements of the Sanitary Code. The cases are still pending in the Superior Court and the Town of Hubbardston has agreed that if the defendants cannot reasonably do the necessary work by March 1, 1967 so as to conform with the requirements, then the Town will give the defendants further time so as to be reasonable in accordance with any further decree, or decrees, of the Superior Court. All parties were

present in Court and represented by counsel when these arrangements were made and agreed and it is hoped that the necessary conformity to the Sanitary Code and to the requirements of the Board of Health can be achieved without unnecessary delay by the several defendants in accordance with their stipulation as stated above and without further litigation.

During 1966 a new case was brought in the Gardner District Court against the Inhabitants of the Town of Hubbardston by Howard B. Taylor to collect for money alleged due to Howard B. Taylor for services allegedly performed by him. This case is still pending at the end of 1966 and will be left on the docket untried in the District Court until after the annual Town Meeting in March, 1967 to see whether or not the town appropriates funds to pay the claim at the annual Town Meeting and after the annual Town Meeting of March, 1967 the case can be further processed.

There are some unresolved problems involving Planning Board, Board of Health, etc., which it is hoped will be solved without litigation if possible. No large or expensive litigation appears likely in 1967, such as on highway takings, or on tax abatements due to the careful way the Town Officers have analyzed and treated the town business in 1966.

REPORT OF THE POLICE DEPARTMENT

The following report is hereby submitted on police activities in Hubbardston for the year 1966.

Weikko Mackie resigned as police chief in March 1966. His resignation was accepted by the Town with regret.

I would like to thank at this time, not only former chief Mackie for his cooperation, but also officers Leo Perreault and Sidney White for remaining on the force until new officers could be found and trained.

This past year has been an extremely busy one for your police department. A series of camp breaks which was solved through the cooperative efforts of your local police and the state police required many additional hours and expenses.

Our police budget in Hubbardston for the fourth time in the past five years was insufficient to cover expenses and required a transfer from reserve funds. In comparison with other towns in our area who do not have full time police departments, Hubbardston in 1966 spent \$1.56 per capita; Royalston spent \$2.50 per capita; Petersham spent \$2.31 per capita; Princeton spent \$3.14 per capita and Oakham spent \$2.33 per capita. Our proposed budget for 1967 will bring Hubbardston's cost per capita to \$2.11 for police protection.

One reason for increased costs has been the effect of recent laws and rulings which have tended to protect the offender and therefore make police work more time demanding and thus more expensive.

Actions participated in included:

- 60 complaints investigated
- 18 court cases on motor vehicle violations
- 7 criminal court cases in Gardner court
- 6 criminal court cases in Worcester court
- 2 appearances before criminal court grand jury in Fitchburg
- 11 arrests
- 12 accidents investigated

A total of 2948 miles were logged at town expense. Many more miles were contributed at no cost to the town by police officers.

A total of 742 hours of police work by members of the department was charged to the town but many additional hours were worked at no charge to the town.

POLICE DEPARTMENT BUDGET

Appropriation	\$1,200.00
Answering service	300.00
Transferred from reserve	600.00
	<u>\$2,100.00</u>

Expenses:

Out of town phone calls	\$ 103.98	
Answering service	345.00	
Equipment	159.83	
Gardner lockup	10.00	
Pistol permits	10.00	
Mileage	294.80	
Wages	<u>1,176.39</u>	
Total Expenses		\$2,100.00

ANNUAL REPORT

REPORT OF THE CIVIL DEFENSE AGENCY

I hereby submit the annual report of the Hubbardston Civil Defense Agency for the year 1966.

Your director participated in the regular monthly radio drills which are held the second Monday of every month. These drills consist of simulated emergencies covering peace time as well as war time incidents that could and would occur.

Monthly meetings were attended at Sector Headquarters in Gardner. At these meetings all the directors of the sector meet and discuss the various phases of the Civil Defense program. In addition to the sector director who supervises these meetings, the area director and also the state director attend a few of these meetings which gives us a chance to bring out any questions and problems that we have.

We are allowed to go to Taunton, Mass. once a month for the procuring of surplus property.

The Board of Selectmen and the Highway Superintendent have requested the purchase of a few items through Civil Defense for the town. These requests have been forwarded to the Sector Director, which is the first step. He then sends them to area and then to the state level. Then our name goes on the waiting list for these items.

The tank truck has been painted this year and proper identification emblems placed on the vehicle. Suction hose has been bought for this piece of equipment. This truck answers all fire calls as it has a tank capacity of about 2,000 gallons of water. Coming up at the annual town meeting will be a request for a sum of money to buy a pump for this truck. I strongly urge all voters to give serious thought to this. With the set-up now, we have to tie up a fire truck to pump the tank dry. With a pump and the 2,000 gallons of water, valuable property will be saved. As we all know, our biggest handicap in fighting fire in this town is lack of water.

On December 30 the town of Winchendon had a serious water main break which resulted in the hospital getting low on water. A call to Hubbardston requesting assistance in the loan of our tank truck to supply the hospital with water was granted by your director. This in a small way repays Winchendon for the use of the Civil Defense fire truck which was loaned to us during 1965. This is just one way Civil Defense can help each other.

Hubbardston Civil Defense Agency wishes at this time to ask for your help by joining us in setting up a strong Civil Defense unit in this town. With more volunteers working together much can be gained in many ways for the town and yourselves.

Respectfully submitted,

William J. White
Civil Defense Director

LIBRARIAN'S REPORT

We are pleased to report that 1966 was a most successful year.

Many improvements within the building were made. The Banquet Hall was painted and a new ceiling installed. Work was done on the furnace and all the piping was examined.

The Lucy Clough Memorial Room took on new dimensions when modern bookshelves were installed and painted. Some of the cases were lighted and with all the fine books on display it is a most attractive room where privileged high school and college students are permitted to study.

A snow sculpture contest was sponsored in February and suitable prizes awarded the winners.

National Library Week was very well received. We had two evening events and Open House in the Library during the week. Also a contest was held for grade school pupils.

A federal Grant of \$100.00 was made available to us through the Regional Office and we selected twelve much needed reference books which have had considerable circulation during the year.

Mr. Goddard Lieberman, President of Columbia Records, donated 35 recordings of a classical and semi-classical nature and these too have been widely circulated. Some day it is our hope that we may own a record machine with ear phones attached for those who would enjoy listening to fine music.

We held our annual summer story hours on Wednesdays which were climaxed by a Circus Party in August and all the children who attended had a fine time.

During the Christmas holidays the Trustees again sponsored the tree lights and Creche on the common and also the home decoration lighting contest.

We purchased some excellent reference material as well as numerous volumes of popular fiction and non-fiction in 1966.

Mr. Grandone and his staff have been most cooperative during the year and we thank everyone at the Center School for their assistance.

Special thanks to Mrs. Laitinen and Mrs. Green for their fine cooperation and to Mrs. Page who is available when an emergency occurs. Hubbardston is fortunate to have such dedicated individuals interested in the Library.

We had 124 special requests filled by the Regional Library. We also borrowed 510 books from the Regional Pool Collection and 8 films were received for use by local organizations.

A slight increase in our circulation was made in 1966.

The following is the report of the Inspector of Wires for the year 1966, during which 41 inspection trips were made.

Inspections were as follows:

New and changed services	36
Electric ranges	9
Dryers	3
Electric Water heaters	12
Additional wiring	5
Trailer services	4
Oil burners	2
Electric heat	1
Temporary services	2
Inspection of buildings	14

One investigation of lightning damage was made.

Two accident damage investigations were made.

One investigation and wiring condemned after fire damage.

Respectfully submitted,

Richard Holgerson
Inspector of Wires

 REPORT OF THE PLANNING BOARD

The Planning Board held ten (10) regular and four (4) special meetings during the year 1966.

Four (4) non-conforming plans were approved.

This year's efforts consisted largely with the Wachusett Shores development. As of this date, the roads have been oiled on section one (1), but the drainage problems are being worked out.

On section two (2), the roads are ready for finish grade and oiling and the drainage system is about 95% complete.

The Planning Board is showing great interest in the new proposed Regional Planning Board now being formed, but we have requested more information as to the Town's involvement.

Respectfully submitted,

Jules J. Dery
Chairman

REPORT OF WATER COMMISSIONERS

The Water Commission for the Town of Hubbardston has held several joint meetings with other interested groups from the Town to try to establish a base whereon the commission might procede with future planning.

Water Engineers from Alonzo B. Reed Corp. of Manchester, N. H. and from Whitman & Howard, Inc. of Boston, were invited to attend these meetings, at which time they explained some of the problems involved in establishing a Town Water System as well as ways in which the Federal Government assists local communities in the financing of these projects.

The Commission realizes that the Town is in no position at this time to construct an elaborate system. However, it was the feeling of most people present that we should procede to try and find a suitable source of water for the future needs of the townspeople, keeping in mind that several sections have already been taken from us by our neighboring communities, and with the tremendous demand for water, we may one day realize that it is too late to make a claim to what is rightfully ours.

With this thought in mind we contacted the M.D.C. to see what arrangements could be made in obtaining their permission to turn over to the Town land to be used for this purpose.

At first it was thought that Comet Pond might be and answer to our water problem. However after discussing all of the phases involved with the M.D.C. as well as with other regulatory boards, it was pretty much concluded that the Town should try to develop gravel packed wells in the area of Brigham Pond. If the Town desired to drive wells on M.D.C. land in that area, permission would be granted.

With this program in mind, we are placing an article in the Annual Town Meeting for Two thousand five hundred (\$2,500.00) Dollars to be used for the purpose of driving test wells in the Brigham Pond area. Once we locate the desired water source we can stake a claim on it for the future water needs of the Town.

We can then set up some long range planning program which would allow us to establish a Town water system for the future.

REPORT OF THE CONSERVATION COMMISSION

The following is a brief report of the activities of the Conservation Commission:

Members of the Conservation Commission attended several state-wide meetings of the Massachusetts Association of Conservation Commissions and also met with the town of Lunenburg in order to gain the benefit of their experience and long term planning of conservation measures for that town. A very basic survey of Hubbardston has been completed for future reference.

The Welfare District Committee wishes to thank the officials of the towns of Templeton, Phillipston, Royalston, Hubbardston, Petersham and Westminster for their splendid cooperation during the Year 1966. Our thanks also to the various town accountants, town treasurers, finance committee and advisory boards for their splendid cooperation.

In reference to the nursing home we had discussed in our last three or four town reports, we have decided to table this for the time being due to the high real estate taxes. However, we still believe a nursing home of our own is the answer to many of our problems both from the standpoint of care of the patient and economically, but due to the cost of a nursing home, which would run around \$600,000, approximately \$360,000 being raised by appropriation from the towns and floating bonds, we felt that at this time it is too large an operation for the towns to assume.

Effective September 1, 1966 there was a new category of assistance put into effect in Massachusetts known as Medical Assistance. This assistance is going to increase appropriations considerably in the future due to the fact that it is a liberalized program and will provide for the medical care of children under 21 years of age and people over 65. It will also include some people between the

ages of 22 and 64 who are categorically related to our other programs. People who are to receive this program will have to qualify within the definition of need that is set up for the program. This medical care reaches out especially to children under 21 to provide all children with adequate medical care. This program covers all phases of medical care such as doctors, medication, hospitalization, dentists, eye doctors, and any other phase of a medical need. Even though it will increase appropriations as there will be added cost in assuming additional cases that will be eligible for this program, it will provide numerous deprived children with adequate medical care which they would not be able to receive in any other manner.

REPORT OF THE BICENTENNIAL COMMITTEE

It is the wish of the Steering Committee that everyone enter into the spirit of the Bicentennial. If you are not working in some capacity and would like to help, please let us know. We are counting on you to volunteer.

Each committee has been holding regular meetings and events are going according to schedule. Mrs. Donald LaBossiere has been appointed to the Steering Committee to fill the vacancy caused by the resignation of Mr. Norman V. Gallagher. A cancelling stamp which says "Bicentennial Celebration 1767-1967" has been in use at the Post Office since December 1, 1966.

Several events will have been held by the time you read this report. Activities of the Brothers of the Brush and Bicentennial Belles have been taking place. The Parade Committee has held a Military Ball. An art contest to obtain a cover for the Town Report, in charge of Mrs. Hazel Homans, has been held at Center School. First prize, Scott Chabot; second, Cynthia Aalto; third, Diane Richard; honorable mention, Sheila Blood.

We list the following events:

- | | |
|----------------|---|
| April 29 | Teen age dance 8:00 P.M. at Center School, Bicentennial queen to be selected |
| May 12 | Anniversary Ball - National Guard Armory, Gardner, Mass. |
| June 10 and 11 | Activities of the Brothers of the Brush and Belles. |
| June 13 | Incorporation Day - supper 6:00 P.M. Program at Center School 8:00 P.M. |

Parade 2:00 P.M.
Chicken barbeque 5:00 P.M. |

We are asking for the sum of two thousand dollars to help pay for additional expenses. A good share of this is needed by the Parade Committee. We must have money to work with. We repeat, we do want this to be a grand celebration without cost to the town.

Respectfully submitted,

Mrs. Walter E. Norberg, Chairman
Mrs. Donald LaBossiere, Treasurer
Mrs. Richard Holgerson, Secretary

ANNUAL REPORT

REPORT OF INDUSTRIAL COMMISSION

It was agreed at the January meeting that the object of the Industrial Committee was to keep organized and follow up all leads of any business or industry which might be interested in locating in the Town of Hubbardston, also to help any industry or business already located in town.

With limited powers and no funds, the Committee further agreed that until such prospects showed up, the committee could best serve the people of Hubbardston by working with other town committees and selectmen.

Some of the interesting meetings of 1966 were: May 19 dinner meeting at the Green Meadow Lodge in Sterling. Mr. Thomas J. Early of Massachusetts Dept. of Commerce and Development was the guest speaker.

Besides meeting with other town committees, a representative of the Industrial Committee attended the July 18 conference on Federal cooperation with local government sponsored by Senator Edward Kennedy at Clark University.

Respectfully submitted,

REPORT OF THE SUPERINTENDENT OF SCHOOLS
MASSACHUSETTS SCHOOL UNION #2

I hereby submit my final report for the Town of Hubbardston, Massachusetts School Union #2. The close of the current school year will mark the end of one of the oldest school unions in the Commonwealth. Hubbardston will be aligned with the town that comprise the Quabbin Regional School District which will serve students in grades 7-12 from the four towns of the district. The elementary schools will continue under a union organization.

The officers of Massachusetts School Union #2 for the 1966-1967 school year are:

Chairman	Mr. Louis Panaccione, Barre
Vice Chairman	Mr. Weikko Holopainen, Hubbardston
Secretary	Mrs. Donald Haines, Petersham

The Union budget for 1967, including local expenses, is \$26,502.86 and is apportioned according to the number of students enrolled in the local schools and a percentage of students attending elsewhere for whom tuition is paid. Beginning July 1, 1967 with the reorganization of the school union, administration expenses will be shared with the regional district. Table I-B shows the apportionment of the union's share.

REPORT OF THE PRINCIPAL
OF
HUBBARDSTON CENTER SCHOOL

In accordance with custom, your principal reports to you significant developments at Center School during the past year.

The teaching staff experienced several changes in personnel. Mrs. Evelyn Stewart, teacher of grades one and two, left to accept a position in Sterling. Mrs. Elizabeth Parent, teacher of grade five, went to Holden. Mrs. Marguerite Bumpus, special help teacher, became a reading specialist at Oakmont Regional High School.

Mrs. Rose MacDonald was hired to take over grades one and two. Mrs. Parent was replaced by Miss Gertrude Musson. Mrs. Elizabeth Nedwick agreed to give reading assistance in our extra help class. Miss Susan Marean, a senior at Athol High School, was obtained to coach the girls' basketball team.

The basic school organization of grades five, six, seven, and eight, was changed for the 1966-67 school year. The self-contained classroom, used in previous years was replaced by departmentalization. Under the program, Miss Musson teaches Science in grades five through eight, and has a fifth grade homeroom. Mr. Sweeney teaches Social Studies and has a sixth grade homeroom. Mr. Foley has English and a seventh grade homeroom. Mr. Grandone teaches Mathematics and has an eighth grade homeroom. Each teacher is responsible for the reading program in his own homeroom.

The new arithmetic program was expanded this year to include grades three and four. Next year it will include the entire school as we will add grades five and six to the program and grades seven and eight will leave us to attend Quabbin Regional Junior-Senior High School. It was felt that this gradual adopting of the newer mathematics over a three year period would tend to lessen problems associated with the transition.

Both Mr. Foley and Mr. Grandone have worked on a slight reorganization of the seventh and eighth reading program for this year. Rather than teach reading skills exclusively, we have attempted to broaden the program into more of a literature class. Students now are being exposed to all types of literature such as the short story, the novel, drama and poetry.

Center School continued its rather full schedule of extra curricular activities for students in 1966. Grades three through eight each participated in class trips taking them to various educational points of interest. Interschool basketball was provided for boys and girls of grades seven and eight. Intramural football, kickball, basketball, volley tennis, baseball and softball were included for grades five through eight.

Programs for parents such as the Christmas program, the Memorial Day Program, and Graduation, are always highlights of the school year. Miss Lois Mackie and Miss Joanne Homans were essayists in the June 1966 graduation exercises. Sportsmanship trophies were won by Miss Cynthia Hall and Mr. Joseph Gaidanowicz. Class President, James Sawicki, presented the school with a gift of money to be used for the completion of the outdoor basketball court.

The Hubbardston Teachers' Association presented its annual scholarship to Mr. Larry Kangas, a senior at Athol High School, who is now attending the University of Massachusetts.

I believe heartfelt thanks are in order to all of the agencies and organizations in the community which aid the school through interest, time, and funds given to the school to support the many programs and activities we have. The individual citizen taxpayer, who in a real way makes public school possible, should be thanked. A special thanks to teachers and other school personnel who use their talents to give the youth of Hubbardston the best education possible at all times.

Respectfully submitted,

Roy F. Grandone
Principal

REPORT OF THE QUABBIN REGIONAL SCHOOL DISTRICT COMMITTEE

"A YEAR OF ACCOMPLISHMENT"

One year ago, the Smith residence and dairy barn stood where today the Quabbin Regional High School now stands more than half completed. This fine structure is a symbol of the desire of the citizens of Barre, Hardwick, Hubbardston and Oakham to provide their children, and the children of the future, with the opportunity for a quality education.

The year 1966 which has brought this new school into reality has been a very busy one for your school committee. Eighty-nine regular and special meetings were held during the year. Decisions were made on problems ranging from the selection of brick to the selection of a quality principal for the school, and the development of an operating budget for the coming year.

This report will cover our accomplishments in 1966, the problems to be faced in 1967, and a detailed financial statement.

Early in 1966, Dr. Thomas J. Curtin, Deputy Commissioner of Education met with the committee and explained the steps necessary to reorganize the school union in order to make the Regional District and Union coterminous. On December 21, 1966, the State Department of Education approved the above reorganization. This action will permit the employment of one superintendent for both the Regional District and Union, resulting in an improvement in educational continuity from grades one through twelve, and other benefits.

Dr. Curtin called the school committee's attention to the fact that under the newly adopted provision of "The Willis Report", towns are required to provide children with a kindergarten education at public expense. The kindergarten provision becomes effective at the discretion of the Department of Education. Those communities having available classrooms may expect these regulations to apply to them in the near future. One of the important duties facing the town school committees is a careful study and evaluation of the requirements, facilities and need for public kindergartens in the coming year.

Dr. Curtin laid another long-range project before the town school committees with his recommendation that the four towns of the Quabbin Regional School District study the advantages of overall regionalization of grades one through twelve. With the successful completion and opening of the Jr.-Sr. High School, time will become available for the long and complicated task of developing the facts necessary before the town citizens can vote on such regionalization.

On March 14, 1966 the Committee elected the following officers:

Mr. John Ritter, Chairman
Mr. John Gould, Vice Chairman
Mrs. Daisy Widing, Secretary
Mr. Thomas Staiti, Treasurer
Mr. Francis Cranston, Legal Counsel

During the past year many policies related to the school staff were adopted. These include a salary schedule designed to recognize and to attract superior teachers, as well as provisions for health insurance coverage, and other 'fringe' benefits.

In June the Committee started its search for a school principal and in August, Mr. Kent Bailey was offered a contract. Mr. Bailey had served successfully in New Hampshire and in Littleton, Massachusetts, as a principal. He is presently attending the University of Massachusetts, working toward a doctor's degree.

Mr. Robert Baldwin, Under Secretary of the Navy, notified the Committee in September that the Quabbin Regional High School had been designated as the base for a Naval Junior R.O.T.C. unit. In October, Captain Richard P. Nicholson, presently Commander of the United States Naval Station at Newport, Rhode Island, was elected Commander of the N.J.R.O.T.C. unit at Quabbin. It is the measured opinion of your Committee that this unit will afford our young men educational and military orientation opportunities which will prove invaluable to them. Enrollment is entirely voluntary, but also selective.

Fourteen meetings were held in October and November alone to act on the first operating budget for the new school. Prior to the adoption of the final budget, all Selectmen and Finance Committee members of the four towns were invited to meet with the Committee and discuss all budget items in detail. Over thirty town officials attended the meeting.

The meetings held during the final month of the year were largely spent on examining the applications, transcripts and references of in-service teachers who had applied for employment at Quabbin: and electing those whose qualifications met the high standard of the new high school.

The year 1967 appears to promise no let-down in the work load, or in the importance of the decisions to be made. Much still remains to be done in selecting the cafeteria and custodial staffs and in completing the teaching staff.

The completion date for the school building is presently set at July 1, Weather, labor and material shortages, etc., may delay completion, but there is little doubt that the school will be ready for occupancy in September.

One of the most important tasks for any school committee is the selection of the school superintendent - the educational leader of the school system. Early in January, action will be initiated leading to the employment of a highly qualified, experienced school administrator to assume his duties in July of 1967.

The Committee looks forward with confidence to establishing this Quabbin Regional High School on the foundation of educational quality and excellence promised in the initial stages of its conception.

MONTACHUSETT REGIONAL VOCATIONAL TECHNICAL SCHOOL DISTRICT

1966 REPORT

Meetings were held in the Montachusett Office in Fitchburg on the first and third Wednesday of each month with sub-committee meetings held on the second and fourth Wednesday from 7:30 - 10:30 P.M.

While the untimely death of the newly elected Superintendent-Director, Franklin M. Angevine, in September slowed down the work of the committee, much progress was made.

The name and seal of the school were selected.

Korslund, LeNormand and Quinn was selected as the architect.

Story, Thorndike, Palmer and Dodge was selected as bond counsel.

The site committee has three possible sites under consideration.

A Director of Guidance and Curriculum, Mr. Orren Bradstreet, was hired who will be most helpful in the early planning of this school until a Superintendent-Director can be selected.

A salary reimbursement of \$9,500.00 for the Director of Guidance and Curriculum, and \$12,500.00 for a Superintendent-Director has been approved by the Bureau of Vocational Education for this school.

Respectfully submitted,

Raymond Moore

REPORT OF THE BOARD OF REGISTRARS

The following is a brief report of the activities of the Registrars of Voters:

Members of the Board met seven times in 1967 to hold meetings to register new voters, prepare the 1967 voting list, certify signatures on nomination papers for the coming Town Election on March 6, 1967, to hold a recount of votes case for the office of Assessor and a budget meeting to determine the budget for 1968.

The Board would like at this time to extend its thanks to the Election Officers for a job well done as the recount verified by having the count stand as originally counted. Also to thank Mrs. James O'Connor for taking the census for our street listing and Mr. Raymond E. Wead, Jr. for replacing and repairing the voting booths that were badly in need of attention.

During the year the members acted as counters, checkers and in any other way that was requested of them, such as the three Special Town Meetings and at the Annual Town Meeting.

In October Mrs. Clara Wead had to resign from the Board for she felt she no longer had the time that was required to remain as a member. Mrs. Anne Richard was appointed by the Selectmen in December to fill the unexpired term of Mrs. Wead.

The following names were submitted to the Selectmen for their approval and appointment to serve as Election Officers from September 1967 to September 1968:

Appointed

Warden	Mrs. Marie C. Hillman
Deputy Warden	Mrs. Viola Dill

REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Hubbardston:

The Selectmen organized with Robert Meagher, Chairman, Richard Lyon, Jr., Clerk, and Theodore H. Curtis, Member.

The Board met every other Monday night with numerous special meetings called as town business required.

The Selectmen served as the Board of Health for the first two months of 1967 and until the newly elected members of that board were certified in March. Pertinent files and information were then made available to the new board and active cases were jointly discussed in order to insure an orderly transition of authority.

Members of the Board made several trips to the County Court House to confer with various county officials.

The Board has requested the New England Telephone Company and the Department of Public Utilities to allow toll-free calls between Hubbardston and Barre. The telephone company has informed us that a study is presently being made of this situation.

At the 1967 Annual Town Meeting the Selectmen were charged with responsibility for conducting a water search for the Town, and a sum of \$2,500 was appropriated for this purpose. Several joint meetings were held with the Water Commissioners concerning this work. Present at some of these meetings were representatives of the R.E.Chapman Co. and engineers. The Board sought bids for the drilling of test holes and the lowest of three bidders was the R.E.Chapman Co. of Boylston, Mass. Fifteen test holes have been drilled in an attempt to secure a well defined profile of the best possible areas where gravel packed wells might be established. The information gained from these test holes has been reviewed by the Selectmen and the Water Commissioners. Expenses to date have been \$710.50 for drilling, leaving a balance of \$1,789.50. The Board has planned a meeting with hydrological engineer, Prof. Ward Motts of the University of Massachusetts for early this spring to plan for additional surveys and test hole drilling in 1968.

The Board would like to thank members of the various boards, committees and commissions for the service they have rendered the Town. The Selectmen would like especially to thank all those boards, committees and individuals who worked so hard and contributed so much to make our Bicentennial celebration such a success.

Respectfully submitted,

Robert Meagher, Chairman
Theodore H. Curtis
Richard Lyon, Jr.

REPORT OF THE TOWN COUNSEL

The Town Counsel respectfully presents a brief summary of 1967 legal business. More detailed information is available at any time on any particular subject upon request.

Conferences, Hearings, and Legal Advice in the work of Town Officers and Boards. The Counsel attended conferences with Officers and Boards of Officers and attended Hearings, and rendered legal opinions as required, both orally and in writing.

Courts. The interests of the Town were protected in 1967 in cases involving the Town in the Superior Court and the District Courts.

State Authorities, including the Attorney General and the Director of Accounts. In 1967 the Counsel used a procedure of consulting with State Authorities, such as the Attorney General or the Director of Accounts, before important action was undertaken by the Town Officers in any instance where it appeared that approval of any such State Authority would ultimately be necessary. In this way, the actions of the Town were synchronized with the State.

Legal Situation in 1967. No new actions in Court were instituted by the Town or against the Town in 1967.

The Court cases pending against the Town or for the Town on January 1, 1967 were disposed of during 1967 as follows:

Robert A. Hills Case - Accident on Highway - 1965

This case is still pending in the Worcester Superior Court. It seems unlikely to the Town Counsel that the Town will have to pay any damages.

Gabriel G. Morze - Claim for Damages on Tax Sale of Low Value Land

In this case involving a suit for \$900.00 the Town Counsel argued the matter twice before the District Court in Gardner and ultimately a finding was made by the Court against the Town, in favor of the plaintiff for \$250.00. This sum with interest and costs of \$38.00, making a total of \$288.00 will have to be paid by the Town early in 1968.

Three (3) Board of Health cases involving unhealthful conditions in three (3) residences:

The unhealthful conditions have been remedied in two of the cases and the Superior Court has, for the time being, dismissed the actions which were brought to enforce the Sanitary Code. In the third case the Superior Court has

given the householders until April 15, 1968 to remedy the unsanitary conditions in their home.

Howard B. Taylor case

Payment has been made for the services which were the subject of this case and the case has been dropped.

Other Matters. There are some unresolved problems involving Planning Board, Board of Health, etc., which it is hoped will be solved without litigation if possible. No large or expensive litigation appears likely in 1968, such as on highway takings, or on tax abatements, due to the careful way the Town Officers have analyzed and treated the town business in 1967.

Respectfully submitted,

John W. Fellows,
Town Counsel

REPORT OF THE FINANCE COMMITTEE

With the reorganization of the Finance Committee it was agreed that regular monthly meetings should be held, therefore the first Monday evening in the month when the Board of Selectmen meet was designated as an appropriate time.

In addition to our regular stated meetings, several joint meetings were also held with various boards and officers bringing about a total of 15 meetings held during the year.

Ten transfers were approved during the year - the Reserve Account now standing as follows:

Balance in account March 1, 1967		\$5,000.00
Transfers:		
Veterans' Benefits	\$500.00	
Cemetery and Parks	50.00	
Snow Removal	25.00	
Memorial Day	17.50	
Veterans' Benefits	1246.00	
Board of Selectmen Expense	50.00	
Board of Selectmen Telephone	50.00	
Highway - paid holidays	45.60	
Snow Removal	35.00	
Old Cemetery	1.10	
Contingency	134.65	
Fire Dept.	<u>38.21</u>	<u>2193.06</u>
Balance as of December 31, 1967		\$2806.94

This committee feels greater candor has been established this year especially with the Board of Selectmen and the Town Accountant, and we look forward to enlarging on this in the future among all officers and committees, for it is only by this type of cooperation that all our efforts will bring about a town government in which we can be proud and from which great progress will result.

REPORT OF THE POLICE DEPARTMENT

The following report is hereby submitted on police activities in Hubbardston for the year 1967.

I would like at this time to thank all local and out of town police officers who cooperated so fully during the Bicentennial celebration and thereby contributed to its success.

It should be noted below in comparing police activities in 1966 and 1967, that although 1966 was a busy year, 1967 proved to be even busier.

Actions participated in	1966	1967
Complaints investigated	60	184
Court cases on motor vehicle violations	18	32
Criminal court cases in Gardner Court	7	2
Criminal court cases in Worcester court	6	7
Arrests	11	6
Accidents investigated	12	38

A total of 5934 miles were logged at town expense. Many more miles were contributed by police officers at no cost to the town.

A total of 1027 3/4 hours of police work by members of the department was charged to the town, but many additional hours, especially in connection with the Bicentennial, were worked at no charge to the town.

Copies of accident reports requested by insurance companies must be made out by the police chief on his own time. The receipts paid for these reports are now paid in to the town treasury. In 1967 a total of \$27.00 was received and turned in to the treasurer. In 1968 a special account will be requested so that reimbursement for this work can be made to the police chief.

<u>Police Department Budget</u>		
Appropriation		\$2850.00
Answering service		300.00

REPORT OF THE CIVIL DEFENSE AGENCY

I hereby submit the annual report of the Hubbardston Civil Defense Agency for the year 1967.

All meetings held for Sector 3E directors were attended by your director. Radio and simulated drills were held from time to time.

An in depth study of fallout shelters was attended by your director. More studies are to come up this coming year.

As for the surplus property this year, it has been checked from time to time, but due to the conflict in Viet Nam, nothing worthwhile is being let out to Civil Defense or any other agency.

During the year the pump was installed on the tank truck, and has increased the value of this truck considerably. This truck can now be filled and emptied without using another piece of equipment.

One program for the coming year is to put into operation at the fire station the 10kw Generator for emergency power. This will not only supply the station with heat and lights, but also radio communication.

Civil Defense Equipment

- 1 1953 Truck and Equipment
- 1 Base station, receiver and transmitter
- 11 First Aid Kits
- 1 Typewriter
- 1 Desk and Filing Cabinet
- 2 Generators, 10kw and 28 kw

Respectfully submitted,

William J. White
Dir. of Civil Defense

 REPORT OF THE INDUSTRIAL COMMISSION

The Industrial Commission held several regular meetings throughout the year 1967. A special dinner meeting was held in June with representatives of Ikonen Tool and Die Co. of Gardner, the Hubbardston Colonial, along with many business men and town officials in attendance.

The purpose of this meeting was to encourage Ikonen Tool and Die Co. to locate here in Hubbardston and to announce the future plans of the Hubbardston Colonial Furniture located in the former Farmers Hall on Main Street. A short business meeting followed and new officers were elected.

The Industrial Commission would like to publicly express our appreciation to the many business people of our community and the services they render.

LIBRARIAN'S REPORT

Our Bi-centennial year saw many former residents visiting the library and reminiscing about the hours they had spent there studying. Everyone expressed interest in the changes which have been made over the years and were most complimentary on the colorful display of books and periodicals and the brightness and cheerfulness of the rooms.

Several visitors felt that the Trustees had been most thoughtful in naming our new study area the 'Lucy Clough Memorial Room' and one lady, with tears in her eyes, stated that no one would ever forget "Aunt Lucy" and that a lovely tribute has been tendered to her memory.

This room with its modern bookshelves and displays now has three round, modern library tables with four chairs each to match, which the Trustees purchased at the end of the year.

We would be remiss in not recording here that the float entered by the Trustees in the Bi-centennial parade won first prize in the Historical Division and was awarded a beautiful trophy. The float was constructed by Mr. and Mrs. Elbert Page and Mr. and Mrs. Edwin Laitinen who, despite many calls on their time, gave freely thereof, to make our float a truly meaningful one with its unforgettable mottoes on each side, "Knowledge is Understanding" and "Reading Lights the Path". We thank these devoted friends of the library as well as Mrs. Patricia Gallagher who volunteered to drive the float.

National Library Week events were well attended but we hope in the future that more individuals and organizations will take advantage of the excellent programs offered.

The annual summer Wednesday afternoon story and play hours were well attended and several mothers came in costume for our final circus party at which prizes were awarded.

Worcester Public Library administrator, Mr. Jack Bryant, visited us several times to assist in modernizing our stacks and as a result of his work we have been able to replace many outdated books and we have new ideas in mind for the coming year.

The bookmobile service from Worcester was started in late summer and one of its first calls was to Hubbardston. It calls in Hubbardston every six weeks and in two visits we have borrowed over 300 books. This service, plus being a member of the Regional Service, places our library in a most favorable position to cater to the interests of every reader.

For a second year, Mr. Goddard Leiberson of Columbia Records donated 35 record albums. These records are well

circulated but it is our hope that one day we might own a record player with ear phones attached for music students and others to use in the Library.

The annual Christmas lighting contest was again sponsored by the Trustees and they were pleased to have so many entrants. We wish all could have won a prize.

During the year the Regional Office sent us 31 films for use in the school and for various organizations. They filled over 150 requests for special material and microfilm copies.

Fiction and non-fiction books were purchased for all age groups and several valuable works were added to our reference department.

Mrs. Laitinen, our dedicated assistant for 4½ years, resigned to give all her time to her family. We were fortunate that Mrs. Green could assume the responsibility of assistant with interest and enthusiasm. Mrs. Beth Coffin was appointed to serve as second assistant and she has shown excellent cooperation.

We wish to thank the staff and students of Center School for their kindness and consideration.

We attribute a decline in circulation, as indicated below, to the transferral of the seventh and eighth grades to the Quabbin Regional School.

What your library looks like on the outside is not nearly as important as to what's inside and how it is used. Your library can be a vital part of your community life. Your library should be an open door to knowledge and a fuller life for you and everyone - from the young student to the mature scholar, the homemaker and the business man, the sportsman, the gardener and the music lover, the child learning how to live and the older adult learning how to enjoy life longer.

Does your library really serve all the people in the community? We think it does.

REPORT OF THE BOARD OF HEALTH

We respectfully give this report to the citizens of Hubbardston to acquaint you with some of the work we have done since our election last March.

The Board has held 36 meetings since being sworn into office on March 13th. Two sessions were attended at the Worcester County Court by Mrs. Vallee. Mr. Theodore Curtis kindly came to the first of these sessions as he had been to some of the earlier hearings.

One of our first rulings was that any complaints to the Board should be written, stating plainly the nature of the complaint and be signed by the complaining party or parties. This rule protects the rights of all.

Eight meetings of various Health Associations have been attended by one or more of the Board. Mr. Dery of the Planning Board was very helpful in pointing out some of the problems we might encounter.

Mr. Gilbert Joly met with the Board one evening with Mr. DePaolo and Mr. Porter, consulting engineer for Pinecrest.

At the request of Chief of Police Fales, we inspected two houses, one of which was a danger to the public. The owners were notified to clean up the rubbish in the yard and to board up the windows and doors. The order was complied with by the owners. The other house had inadequate facilities and has been fixed up somewhat.

One building on Old Westminster Road has been condemned and the occupants have moved to more suitable quarters. This case was brought to our attention by Mr. Hackett of the Northern Worcester County Welfare District on September 1. The family claims that they have lived in this shack for eight years and that although certain town officials have been aware of these conditions, nothing has ever been done to correct them. We were very disturbed to find anyone living in such a terrible environment in a nice town like Hubbardston.

We found an apartment for them and feel that their lives will be a lot more comfortable. They moved on Veteran's Day.

There have been seventeen new septic systems installed this year and six permits were issued for repair of existing systems, also nine permits have been issued for new wells. Much of this work has been done since we reduced the fees for all permits to \$2.00, the owner to use whomever he desires to draw the plans. The plans must be in accordance with the rules that have been in effect. All completed work is inspected by a member of the Board before covering.

Only one bid was received on the complete maintenance of the town sanitary landfill. A three year contract has been awarded to Mr. Normand Ouellette for an annual fee of \$4800.00 payable in monthly installments of \$400.00.

It has been a very busy and interesting year. Probably we have not made everyone happy but we are going by the "book" and will keep trying to help make our town a better place in which to live.

REPORT OF THE BICENTENNIAL COMMITTEE

As the Town enters its 201st year with great expectations, the Steering Committee would like to make this final report. We believe we accomplished what we set out to do - appropriately celebrate our 200th birthday according to our size and means. We are pleased to announce that the celebration was a social and financial success. At this time may we thank all town departments for their cooperation.

Several hundred dollars worth of merchandise that was not sold has been left in trust with the Historical Society. All items will be sold at their original cost with the profit to go to the Historical Society and the cost of the product to be turned back to the town. Reports of such sales will be made in future Town Reports.

It is hoped that movies of Bicentennial events can be shown in the near future.

REPORT OF THE PARADE COMMITTEE

The Parade Committee wishes to thank everyone who supported your parade so beautifully, those who helped by sponsoring a band marching unit, or in just donations.

Many thanks go to those people who gave many hours of their time to make our Bicentennial Parade the success we hope everyone thought it was. The parade was a self-supporting event. Moneys were raised through a raffle and by the many persons and companies sponsoring the bands. The Committee realized a profit of \$765.00.

Again many thanks to the townspeople, public officials, police department, highway department and businesses for your loyal support.

REPORT OF THE PRINCIPAL
HUBBARDSTON CENTER SCHOOL

The year 1967 should be characterized as a year of sad conclusions and bright new beginnings. Many traditional activities came to conclusions at Center School as our seventh and eighth grades were transferred to the beautiful new Quabbin Regional Junior Senior High School. Annual events such as graduation and interschool athletics have thus been ended; yet we are all thrilled at the prospect for our young people at the new school.

The teaching staff experienced certain changes from the previous year. Mr. Anthony Watson was hired to teach science and have a fifth grade home room. During the fall of 1967, the enlarged first grade was divided, and Mrs. Wilhelmina Piper was obtained for that position. Mrs. Theresa Skamarycz agreed to work with the remedial reading program. Music and art experienced changes in personnel as Mr. Frederick Hoffmeister became the music teacher and Miss Judith Babineau worked on the art program.

The heart of every school is the curriculum. That which is being taught is the single most important consideration any principal has. 1967 was the year of some change with extensive planning taking place for great change in future years. Modern mathematics is currently being taught to all grades one through six with grades five and six being phased in at the opening of school in September. Although each subject area is under study, most attention is being given to reading and English.

In conjunction with Mr. Bruce Crowder, the English department head at Quabbin, extensive study has begun on a structural linguistics program which will supplant the traditional English program now offered. Teachers attended fall workshops which presented the Words in Color approach to reading. A kindergarten program was studied and recommended as soon as possible. We hope to have one in operation before the 1973 mandatory date. In general we are striving throughout the new union 63 to upgrade the course of study in cooperation with the various department chairmen at the Quabbin Regional High School.

Physical equipment is certainly essential for meaningful teaching. Using Federal funds under Title I and Title II of the Elementary and Secondary Education Act, Hubbardston has made a beginning in 1967 toward equipping our school. Audio-visual equipment, including an opaque projector and a controlled reader, was purchased. Filmstrips and library books in science were added from Title II. The task has only begun, however. In the coming year, overhead projectors, a transparency maker, and classroom adaptations for visual aids are planned.

Center School, for the first time in its history, provided a remedial reading and mathematics program during the summer. Funds for this came from federal moneys under title I. Twenty youngsters gave up five weeks of their summer vacation in order to participate in this activity. Although five weeks do not solve all learning problems, I feel that we did make significant progress.

The year 1967 saw the completion of the outdoor basketball facility. This entire project was paid for from eighth grade money gifts to the school. The first class to begin this project was the class of 1961.

Even though Center School no longer is a member of the Mountain Junior High Basketball League, we still attempt to provide a varied extra curricular program for the students of grades one through six. Intramural football, kickball, basketball, baseball, and softball are enjoyed by students. Class trips to important areas of Massachusetts are important in our overall picture. Programs at Christmas and Memorial Day, as well as the gym show, spelling bee, and art exhibit, encourage young people to display special talents.

Perhaps the saddest of all events in 1967 was the final graduation exercise on June 20. Students, teachers, and parents always regarded commencement as the single most important school social event. Though graduations have been held in Hubbardston for decades, the ceremony, as we knew it, was first instituted by Principal Oliver N. Millett in the early 1950's. The elaborate scenery was the personal contribution of Mr. Chester Shaffer who helped decorate the auditorium each year, concluding in 1967 with the last exercise. It was fitting that the guest speaker last June should be Mr. Millett and that the class of 1966 dedicated its year book to Mr. Shaffer. Through the years, many organizations and individuals in the community gave freely of themselves and their resources to make this program a success. I especially want to mention those who give the awards which were so important to the young people. Donators of awards were the Parent-Teacher Association, The Hubbardston Grange, Asnacomet Credit Union, American Legion Auxiliary No. 374, Mr. and Mrs. Robert Coffin, Mrs. Patricia Gallagher, The Daughters of the American Revolution, and Lowell Technological Institute. Most cherished award recipients were Cynthia Aalto, highest class average, and Diane Richard and Mark Green, sportsmanship trophies. With this graduation we concluded an era at Center School, but we welcome with joyous anticipation the era just beginning.

Respectfully submitted,

Roy F. Grandone

SCHOOL NURSES REPORT

To the Superintendent of Schools:

We hereby submit our Annual Report of the school health activities in the Town of Hubbardston for the year ending December 31, 1967.

- 72 Scheduled school visits made plus others when necessary.
- 52 Children seen in school for illness, accidents and first aid.
- 3 Home visits made in behalf of school children.
- 216 School children received visual screening tests.
- 216 School children received audio screening tests.
- 71 First and fifth grade children had physical examinations given by A.V.Gould, M.D. assisted by the school nurses.
- 33 First grade children received the Tine Test in January, 1967. 1 teacher received the Tine Test.
- 16 First grade children received the Tine Test in November, 1967. 2 teachers received the Tine Test.
- 1 School child attended the Cardiac Clinic.

On April 25th, 1967 the nurses assisted in pre-school registration from 8:45 A.M. to 12:30 P.M.

All school children in grades one through six were weighed and measured.

Head and skin inspections were done whenever necessary.

Parents are notified of any physical defects and of eye and ear failures and urged to consult their family physician.

We take this opportunity to thank the parents and the school personnel for their fine cooperation throughout the past year.

Respectfully submitted,

Catherine M. Brown, R.N.
Norma E. Smith, R.N.

REPORT OF THE QUABBIN REGIONAL SCHOOL DISTRICT COMMITTEE

The year 1967 continued to be unusually busy and taxing for the members of the committee. Forty-six regular meetings were held during the year. "Move to extend the meeting another half hour" became a common and regular part of most sessions because of long agendas and complex problems. Building construction, equipment purchases, staff selections, and policy formations engaged the greater portion of the committee's work.

Unusually slow pace of school construction caused the postponement of building use by students until September 18, 1967 and during the remainder of the 1967 year the school program was tempered by the conditions in several specialized instructional areas which either limited or eliminated spaces needed for a full program. The auditorium, gymnasium, home economics, and several science areas were being completed after the school program officially started. In spite of handicaps, the school program, which drew together students from the four towns of Barre, Hardwick, Hubbardston, and Oakham for the first time, was initiated with great success and it is the committee's impression that an unusually competent and energetic staff, together with the excellent building and facilities, is providing the communities with the high level of education that has been the goal during these many months of planning.

The early spring of 1967 found the committee and school administration deeply involved in the hiring of teaching and non-teaching staff. Included in the staffing chores was the particularly painstaking search for a superintendent of schools who would assume top administrative leadership for Quabbin Regional School District and likewise become superintendent of the elementary program of Union #63. Union #63 includes the same four towns that are in the Quabbin Regional School District. After interviewing and screening many candidates during January through April, the combined Quabbin Regional and Union #63 Committees interviewed final candidates and on May 3, 1967 elected Corridon F. Trask, Jr. for a three year period. Mr. Trask has sixteen years of administrative and supervisory experiences in positions involving elementary, secondary, and vocational education. Prior to accepting the superintendent's position in the Quabbin District, he was serving as Assistant Superintendent at Masconomet Regional Jr.-Sr. High School in Boxford, Massachusetts.

Early in July the Union #63 office moved with Quabbin School District Central Office into the Henry Woods Building (old Barre High School) on West Street, where the four rooms on the second floor were made into the Central Office. To assist the Superintendent of Schools in the business aspect of managing the five school systems, the position of Business Manager was created instead of having an assistant superinten-

dent as is after the case in similar regional and union organizations.

Late in July, Mr. Lloyd Buckley was recommended by the new superintendent and elected by the school committee as Business Manager for a one year period effective September 1, 1967. Mr. Buckley has been an instructor of accounting at the New England School of Accounting for approximately eleven years, and has been responsible for the management of the business aspect of the school. He, likewise, has had seven years as a Senior Accountant for a Public Accounting Firm.

During the 1967 year three changes occurred in committee membership. In March, Mr. John Ciccone and Mr. Matthew Trifilo replaced Mr. Wayne Cauvin and Mr. Louis Panaccione, as Barre representatives. In August, Mr. Anthony Menegoni was appointed to fill the vacancy of Mr. Ciccone. The first meeting in March the committee elected as its officers: Mr. John Ritter, Chairman; Mr. John Gould, Vice-Chairman; Mrs. Daisy Widing, Secretary; Mr. Thomas Staiti, Treasurer; Mr. Francis Cranston, Legal Counsel.

Dr. Charles L. Bowlby, who served the Quabbin School District for two years in the critical stage of establishment, retired on August 31, 1967. The committee is deeply appreciative of his outstanding leadership and energetic administrative skills that contributed much to the well organized program and outstanding staff.

Transportation routes and schedules were established in the spring of 1967 and contracts were awarded to several different persons for regular and late buses. Decisions to provide two late buses daily to all member towns and to provide bus transportation to and from many evening activities has caused high transportation costs. High interest and participation in numerous school activities afternoons and evenings has resulted from this extensive bus schedule, but the high cost for late buses has prompted the committee to seek some type of compromise that will decrease the expenditures.

Budget planning captured much of the committee's time during November and December. The newly organized Quabbin Teachers' Association became the authorized bargaining agent for the teaching staff and after several sessions with committee representatives a new salary schedule was agreed upon to become effective September 1968.

Bachelor's Range	6,000 - 8,450
Master's Degree Range	6,300 - 10,000
Master's + 30 Range	6,600 - 11,020

"Are we trying to accomplish too much too fast?" became the repeated question as the 1968 Budget reached the final development, and reluctantly the committee decided to cut some programs from the operational budget, with a view toward introducing these programs another year. Adult Education as a budget item was eliminated, but plans will be made to have some self supporting programs established on a limited basis. The extra or late bus budget was drastically decreased with the thought that some compromises can be found to encourage after school activity yet decrease the large number of late bus runs.

LOOKING AHEAD

Now that the Quabbin Regional School is operational, the committee can pause and reflect with pride upon progress to date, but not for long as the true evaluation of a good educational program is ahead. The citizens of the four towns have supported the establishment of an excellent program and they will be asked to provide the financial as well as spiritual support necessary to promote excellence in education. The task facing the committee now and in the future is that of promoting policies and practices that will make and keep high standards. Ever increasing costs will keep the citizens well aware of Quabbin Regional High School and the charge to the leaders of the educational program is that of seeking constantly to improve curriculum and teaching techniques in light of the many changes taking place in education.

In particular, the need is great to develop long range plans for both facilities and programs. The enrollments at the school will increase regularly and most all of the member towns will be facing crowded conditions at the elementary level. A study committee has been formed to consider the pros and cons of regionalization in grades 1 - 12 and the State Board of Education recently decided to implement the recommendations of the 1965 Willis-Harrington Act in regard to school district which will promote the establishment of a single school district for the four towns with a single representative school committee.

REPORT OF THE SUPERINTENDENT OF SCHOOLS
 MASSACHUSETTS SCHOOL UNION #63
 Barre, Hardwick, Hubbardston, and Oakham

The officers of Massachusetts School Union #63 for the 1967-1968 school year are:

Chairman	Mr. Norman Drolet, Oakham
Vice Chairman	Mr. Walter Flister, Barre
Secretary	Mrs. Helen Pluta, Hardwick
Clerk	Mrs. Janice C. Higgins, Barre

This first annual report as Superintendent of the newly formed Union #63 will focus on the several significant steps taken to promote a strong system in education which will unite with the Quabbin Regional School District in generating highly effective education from Kindergarten through Grade Twelve.

1. One Central Superintendent's Office, now located in Barre at the Henry Woods Building (Old Barre High School) is serving both Union #63 and Quabbin Regional School District. In addition to the Superintendent, this office is staffed by a Business Manager and four Secretarial-Clerical personnel.

2. On September 18, 1967 the new Quabbin Regional High School opened its doors to students of Grades 7-12 making the local school system in each town Grades 1-6. Oakham is the first town to start a public kindergarten and Hardwick is scheduled to start its program the latter part of January 1968, while Barre will initiate its Kindergarten program in September 1968 and Hubbardston, because of crowded facilities, will postpone Kindergarten until September 1969.

3. Soon after the beginning of Union #63 on July 1, 1967, Union Special Teaching positions were established in Art and Music. Two Art teachers cooperatively provided the special Art instruction for the four towns while the equivalent of two (one full time and two part time) Music teachers provided special Music instructions.

4. In November and December, while working long and seriously on the 1968 Budget, all towns decided to adopt teacher salary schedules equal to the schedule adopted for the Quabbin Regional School District. Effective September 1968:

Bachelor's Degree Range:	\$6000 - \$8520
Master's Degree Range:	\$6300 - \$10,521
Master's + 30 Range:	\$6600 - \$11,022

5. In addition to increased salaries and a schedule that motivates professional improvement of teachers, the salary schedule agreement includes the establishment of "Curriculum Work Days" involving teachers in ten to fifteen days of workshops, seminars, and curriculum study sessions in addition to the 180-185 days scheduled for instruction of children.

6. School Principals have been charged with greater responsibilities for local educational leadership under the new administrative organization. The five Principals of the elementary schools, the Quabbin Principal, and the Superintendent of Schools make up a seven member educational council that meets regularly twice a month to deal with administrative and curriculum leadership problems.

FOCUS FOR THE FUTURE

1. Operation of public kindergarten that effectively promotes the purposes outlined by the state guides, namely: (1) making learning enjoyable for children, (2) strengthening children's perceptual skills, (3) assisting children to adjust to social demands of classroom, (4) identification of children with particular perceptual and/or learning problems followed by individualized help, from kindergarten teacher and specialists.

2. Reorganization of primary grades K-2 into a non-graded phase of early childhood development that concentrates on: (a) diagnosis of each child's strengths and weakness in particular skills of perceiving, reading, computing, and response or desire to learn, (b) as much individualized help as possible for each child through the use of tutors, specialists, and a variety of learning media now being developed.

3. Explore and develop multiple uses for educational television, particularly video taping. Through the use of video tapes and concentrated study increase the awareness on the part of teachers of their interactions with students in the classroom. General concern for the improvement of teacher strategies, methods, and techniques through a self evaluation program. Apply video taping to promotion of individualized learning.

4. Organize and publish complete curriculum guides in all major subjects with emphasis on integrated and sequential programs K-12. It is important that all towns in Union #63 and the Quabbin Regional High School work together on such curriculum development.

5. Improve the music experiences available to all youth with particular focus on increasing the interest and participation in instrumental music. Talented and capable special teachers are needed to work with youth in a well organized program from Grades 3-12.

6. Unify the standardized testing programs in all elementary schools and provide teachers with more time and skills in the use of test results.

7. Employ elementary principals on a twelve month basis, allow them more time for educational supervision and leadership, and charge them with more responsibilities for elementary guidance services.

8. Establish teams of teachers to be responsible for the careful study and appraisal of the many new instructional programs and materials now flooding the field of education.

9. Accelerate the emphasis on teacher-parent conferences at the primary level as a substitute and/or supplement for report cards.

10. Have at least one teacher in every elementary school qualified to administer WISC individual intelligence tests and allow time for such teachers to work with children recommended for special testing.

11. Employ an elementary guidance specialist to service the four communities in Union #63. Such a person would help teachers and parents deal with more extreme problems affecting desired learning progress. Such a person would also maintain contact with agencies available to provide more specialized services than those available within our school system.

12. Make careful study of long range facility needs for our educational programs with particular attention to the advantages and disadvantages of regionalization K-12.

13. Strengthen the health instruction program K-12 with particular awareness of the newer approaches of dealing with topics of sex, alcohol, and drugs.

14. Strengthen our physical education programs to meet the newly established state standards---ninety minutes weekly of physical education, a jamor portion of which should be devoted to vigorous physical activity with adaptive or corrective programs for children who can benefit from such special programs.

15. Continue to promote "Words in Color" as an improved method of teaching beginning reading. This approach is in phase with most recent research concluding that: "best results are achieved by a "code emphasis" approach which focuses the child's attention on a printed word -- and stresses that this word is made up of letters representing sounds that stand for the spelling of words they hear. This is in contrast to the "meaning emphasis" approach which focuses the child's attention on story content and pictures.

This year could properly be called a year of educational adjustment and though the experiences as Superintendent in the four communities has been brief, the cooperation and energetic enthusiasm of school committee members, other school administrators, teachers, and citizens has been commendable and most helpful.

MONTACHUSETT REGIONAL VOCATIONAL TECHNICAL SCHOOL DISTRICT
COMMITTEE REPORT FOR 1967

The purpose of this report is to provide a summarized record of the major activities and development of this past year. Our School Committee worked diligently and faithfully to insure that the youth and adults of the Montachusett School District will have a facility that will provide the highest quality Vocational and Technical education.

Considerable progress has been made toward the consummation of plans and hopes for the new Vocational-Technical School. The structure will be designed for 1,000 students with core facilities that will make expansion possible to eventually house 1,500.

On January 4th, a Superintendent Rating Board was organized with Mr. Richard Dunn, Chairman, Mr. Rowland E. Bonner, and Dr. Clarence P. Quimby, members. Subsequently, 26 applications were received and were qualified by the Bureau of Vocational Education in Boston. After interviews, oral and written examinations, the Committee elected Mr. George L. Ross, Superintendent-Director, effective July 1, 1967.

The formation of the Montachusett Regional-Vocational Technical School District was validated by an act of Legislation and signed by Governor Volpe on June 12, 1967.

The "Business and Industrial Advisory Committee" was organized on February 1st, and held its first meeting on February 8th. Its concept and function is to promote school, employer, and union relationships; to provide recommendations for course offerings and adult training and re-training programs; and to evaluate the need for initiating program changes. This committee has aided in developing a survey as well as being instrumental in initiating an Industrial public relations program.

As an additional aid for the design of shops, laboratories, and facilities, 15 craft committees were organized. Their membership consists of a cross representation of specific skill areas. These include employers of large and small companies, unions, engineers, and technicians. The craft committees are of invaluable aid in recommending equipment, course content, and in keeping pace with technological advances. Their long range function will be to maintain school-craft relations and to provide clinics and demonstrations supplemental to the classroom.

The School Committee has adopted as a part of its philosophy "A program of instruction that will be updated and flexible, provide for career education and readily available to people of all ages and needs. We plan to operate 12 months a year, 6 days a week and evenings, and we expect to include

occupational courses aimed at the general course student, as well as those with technical level potential. We will have adult training and retraining programs. Thus we will provide for upgrading skills for those already in industry, as well as benefiting the under-employed socio-economically disadvantaged."

Based on this philosophy, "Montachusett Regional" and the State Board of Education's Vocational Bureau conducted a series of surveys and studies to determine the curriculum. Twenty-eight courses were thus determined as the most essential and promising for career orientation in this area. The program will consist of Grades 9 through 12 and will include post graduate courses. The courses offered beyond the 12th grade will include beginning skills as well as advanced courses in depth. The same facilities that are designed for the day students will be used for 2000 or more adults and out of school youths in the late afternoon, evenings, Saturdays and during the summer.

At the request of the town of Westminster, early in the year, an amendment to the Agreement was drafted permitting Westminster's withdrawal from the District. The amendment was submitted to, and approved by, the towns and cities.

At the first meeting in January, and again in April, at the annual reorganization meeting, Mr. Richard Dunn, Chairman, and Mr. Francis A. Carbone, Vice-Chairman were elected unanimously. Mr. Morrill G. Sprague was reappointed as Treasurer, and Mr. Victor Warner was reappointed as Secretary. Mr. Bradstreet had resigned as Chairman to accept the position of Director of Guidance and Curriculum Development, effective January 1, 1967.

On April 5th, the School Committee voted to obtain approval for incurring debt up to \$150,000 for the purpose of acquiring a site; preparing architectural and engineering plans; and for the construction of a Vocational-Technical School. This action was approved by the member communities and the Massachusetts Emergency Finance Board.

The District entered into a formal contract with the firm of Korslund, LeNormand & Quinn, Inc., as the architects. The District then voted to incur a debt of \$65,000 for acquiring a site, and for preparing engineering and architectural plans for the construction of the school.

After examining and evaluating 12 sites, the Committee took by eminent domain the site known as the Roper Estate and a parcel of land owned by Weyerhaeuser Company on Route 2-A, near the Route 140 interchange. In selecting this site the Committee was motivated by its central location; the ease of access to all of the towns and cities in the District; and by the comparative lower cost of site development.

Since the signing of the contract with the architects, several schematics (based on the course offerings as prescribed by the tentatively approved educational specifications) were received. On December 20th, the School Committee approved a final schematic and the architect was instructed to develop the plans.

At the December 6th meeting, a final operating budget for 1968 was adopted in the amount of \$53,410 less reimbursements. The anticipated revenue from the Federal government for salaries (from P.L. 88-210) is in the amount of \$12,000, thus reducing the budget to a total of \$41,410.

As a result of the passage of Senate Bill #1410 and 1412, 50% reimbursement for all Operating Expenses for Vocational Schools was instituted, making it possible to educate students at the Regional Vocational School at much lower student rate.

Savings to participating communities should be reflected in a lower student cost than the per student cost of their own schools. In addition, the communities which up to now had not participated in Regional School Districts, will be eligible for an additional 15% of their State annual reimbursement.

The time schedule as originally developed in February 1967 and revised in September, to include more detail, indicates that the start of construction should take place during the Fall of 1968, subject to the approval of the Bond Issue by the participating communities in the Spring of 1968. If construction can start as per schedule, the school can open in September 1970.

The Committee has accepted the following co-educational Curriculum:

ARTICLE 31: To see if the Town will vote to adopt the following By-Laws:-

ZONING BY-LAWS

These By-Laws are adopted to promote the health, safety, convenience and welfare of the Inhabitants of the Town of Hubbardston by regulating the use of premises under Chapter 40A of the General Laws of the Commonwealth of Massachusetts.

I. AREA REGULATIONS AND LOT SIZES

A. Main buildings and subsidiary buildings.

On each lot there shall be only one main building and there may be any number of subsidiary buildings. The main building on any lot shall be that building in which the principal use of the lot takes place. Subsidiary buildings on a lot shall be those incidental to the use of the lot, such as sheds, garages, barns or storage buildings. Main buildings and subsidiary buildings shall all be subject to the set-back requirements stated in Paragraph II, "LOT SIZES, FRONTAGE, AND SET-BACK REQUIREMENTS". Notwithstanding the above, in the case of street, side, or rear lot lines where there are main buildings on either side which are within 100 feet which are nearer to the street, side or rear lot lines than the required distance, then and in that event, a main building may be constructed on a line with existing main buildings. A lot may have two or more main buildings, provided that each main building on a lot must satisfy the minimum requirements of area lot sizes and frontage so that the minimum requirements of area and frontage are satisfied for each main building on a lot; otherwise, additional main buildings cannot be constructed on a lot.

II. LOT SIZES, FRONTAGE, AND SET-BACK REQUIREMENTS

A. Lot sizes.

Each main building shall be erected on a lot containing no less than 40,000 square feet of land.

B. Frontage.

Each main building shall be erected on a lot having no less than 150 feet of frontage on a way.

C. Set-back requirements.

Every main building and every subsidiary building shall be set back at least 30 feet from any street line and at least 30 feet from the rear lot line and at least 10 feet from the side lot lines. The street line described in this paragraph shall be the side of the street where a plan of such street is on file in the Worcester District Registry of Deeds, and where there is no such plan on file, shall be a line parallel to the center line of the street and 25 feet from the center line of the street. Notwithstanding the provisions of this paragraph, main buildings may be constructed nearer to street, side and rear lot lines when they are on a line with existing main buildings as stated in Paragraph I, above, "AREA REGULATIONS AND LOT SIZES".

III. GENERAL REGULATIONS AND NON-CONFORMING USES

A. Continuation of Non-Conforming Uses.

Any lawful buildings or use of a building or premises or part thereof at the time this By-Law or any amendment thereto is adopted may be continued although such building or use does not conform to the provisions thereto.

B. Limitation on Restoration.

Any main building or subsidiary building which does not comply with these By-Laws which has been damaged after the adoption of these By-Laws by fire or other cause may be repaired or rebuilt provided that it shall not be extended beyond its former walls in the repair or rebuilding thereof.

C. Lots Owned at Time of Adoption of this By-Law

On any lot which is separately owned at the time this By-Law is adopted by the Town, main buildings and subsidiary buildings may be erected regardless of the area or frontage of the lot provided that any such buildings so erected shall not be nearer than 30 feet from the front and rear lot lines and 10 feet from the side lot lines.

IV. ADMINISTRATION AND ENFORCEMENT

A. Machinery for Administration and Enforcement.

There shall be a Board of Appeals of five members appointed by the Selectmen under the General Laws of Massachusetts. These members shall be appointed for a term of five years each so that the term of one member shall expire each year. The Selectmen shall also appoint one Associate Member for a term of five years to serve in case of the death or disability of any regular member. This Board of Appeals shall act upon all matters within its jurisdiction under this By-Law and under the laws of the Commonwealth of Massachusetts. This Board of Appeals shall at all times give consideration to the promotion of the public health, safety, convenience and welfare, and this Board shall prescribe appropriate conditions and safeguards under this By-Law to avoid use of premises detrimental to any neighborhood and contrary to this By-Law.

B. Enforcement.

The Board of Selectmen shall appoint a Building Inspector whose duty it shall be to grant permits for construction of buildings under the jurisdiction and subject to the control of the Selectmen. No building shall be built or repaired without a permit. The Building Inspector shall report regularly to the Selectmen regarding all construction or repair of buildings and all permits issued. The Building Inspector shall be paid for his services an amount to be decided by the Town from time to time. Whoever shall construct or repair any building without a permit shall be punished by a fine of twenty dollars for each offense. If a permit is refused by the Building Inspector to any applicant, he may appeal to the Board of Appeals for a public hearing, and the Board of Appeals shall hold such a public hearing after giving notice under the provisions of the General Laws of Massachusetts in such case. After such public hearing the Board of Appeals shall make a finding in writing either granting or refusing the permit. The Board of Appeals shall grant relief to the appellant where failure to do so would cause undue hardship to him and where such relief can be granted without detriment to the public good and without substantially deviating from the intent and purpose of this By-Law. The provisions of this By-Law shall be enforced by the Board of Selectmen.

V. VALIDITY AND AMENDMENT

A. Validity.

These By-Laws shall take effect as provided by the General Laws if approved by the Town of Hubbardston. The invalidity of any section or provision hereof shall not invalidate any other section or provision hereof.

B. Amendment.

These By-Laws may be amended, altered, modified or repealed at any Town Meeting of the Town of Hubbardston as provided by Law.

or take any action relative thereto.

ARTICLE 32: To see if the Town will vote to adopt the following By-Law:

HOUSE TRAILERS

Section 1. No house trailer may be used for living purposes in Hubbardston except those already in such use on January 1, 1969, with the following exceptions:

(a) Any person building a new dwelling house in Hubbardston may live in a house trailer on the premises where the dwelling house is being built and during the construction of such new dwelling house for a period of not more than one year.

(b) House trailers may be occupied as dwelling houses in regularly licensed camping grounds in the Town of Hubbardston for a period of not more than six months in any calendar year.

(c) House trailers may be occupied for dwelling purposes not in or upon licensed camp grounds for a period of not more than three months in any calendar year with special permission of the Planning Board.

(d) Notwithstanding the provisions of paragraphs (a)

(b) and (c) above, house trailers may be used for living purposes if just cause is presented to the Planning Board and if the Planning Board and Board of Selectmen both approve such use by the issuance of a license. The license issued in such case shall specify the manner in which the house trailer shall be used and the house trailer cannot be used in any other way. Such license shall be good only for one year and must be renewed on January first of each year and shall be non-transferable.

Section 2. The provisions of Section 1. shall be enforced by the Board of Selectmen.

or take any action relative thereto.

ARTICLE 33: To see if the Town will vote to accept the amendment to the Agreement for the Establishment of the Northern Worcester County Regional Vocational-Tech. School District as amended, now being the Montachusett Regional Vocational-Technical School District providing for the withdrawal of the Town of Ashburnham from the District, initiated by the Regional District School Committee January 8, 1969. The amendment to the Agreement is as follows:

The Agreement for the establishment of the Northern Worcester County Regional Vocational-Technical School District as amended, now being Montachusett Regional Vocational-Technical School District, as amended, shall be further amended by substituting the following provisions in place of the preamble and sub-section I (C):

PREAMBLE

"This Agreement is entered into pursuant to Chapter 568 of the Acts of 1964 as amended by Chapter 543 of the Acts of 1965 by and among the cities of Fitchburg and Gardner and the towns of Ashby, Barre, Harvard, Hubbardston, Lunenburg, Royalston, Sterling and Winchendon, Massachusetts. In condieration of the mutual promises herein contained, it is hereby agreed as follows:

"Sub-section I (C):

"(C) At the regular city elections in 1967 and at the regular city elections in every odd-numbered year thereafter, the cities of Fitchburg and Gardner shall each elect one member to serve on the Committee for a term of four years. At the annual town elections in 1968 and at the annual town elections in every fourth year thereafter, the towns of Ashby, Barre, Harvard, Hubbardston and Lunenburg shall elect one member to serve on the Committee for a term of four years. At the annual town elections in 1968 the towns of Royalston, Sterling and Winchendon shall each elect one member to serve on the Committee for a term of two years and at the annual town elections in 1970 and at the annual town elections in every fourth year thereafter, the said towns shall each elect one member to serve on the Committee for a term of four years."

ARTICLE 34: To see if the Town will vote to establish a Recreation Commission under the provisions of General Laws, Chapter 45, Section 14, and to determine the manner of appointment, or election, of the members of the Commission, or take any action relative thereto.

ARTICLE 35: To see if the Town will vote to establish cooperative arrangements with the Town of Princeton for the provision and operation of recreational facilities and programs of mutual benefit to the citizens of the two towns, pursuant to the provisions of General Laws, Chapter 45, Section 14, the two towns to share the expenses equally, or take any action relative thereto. (Not approved by Finance Committee.)

ARTICLE 36: To see if the Town will vote to lease land on the northeasterly shore of Asnacommet Pond jointly with the Town of Princeton, from the Metropolitan District Commission, for use for recreational purposes, or take any action relative thereto. (Not approved by Finance Committee.)

ARTICLE 37: To see if the Town will vote to raise and appropriate a sum of money not in excess of Seven thousand five hundred (\$7500.00) Dollars for the purpose of developing a swimming and recreation area on land to be leased from the Metropolitan District Commission at Asnacommet Pond in cooperation with the Town of Princeton, or take any action relative thereto. (Not approved by Finance Committee.)

The foregoing articles have been reviewed and approved by the Finance Committee unless otherwise indicated.

And you are directed to serve this warrant by posting attested copies thereof at the Post Office, Farmers' Coop. Store, Williamsville, and at the Auditorium in said Town, seven (7) days at least before the time of holding the said meeting.

HEREOF, FAIL NOT, and make due return of this Warrant with your doing thereon to the Town Clerk at the time and place of meetings as aforesaid.

Given under our hands this twenty-third day of January in the year of Our Lord, One Thousand Nine Hundred and Sixty-Nine.

REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Hubbardston:

The Selectmen organized with Theodore H. Curtis, Chairman; Richard Lyon, Jr., Clerk; and Russell D. Valley, Member.

The Board met every other Monday night with several special meetings called as town business required.

At the 1967 Annual Town Meeting the Selectmen were charged with the responsibility of conducting a water search for the Town and a sum of \$2500.00 was appropriated for this purpose. We began 1968 with a balance of \$1789.50 in this Account, having spent \$710.00 for test drilling in 1967. In 1968 the Selectmen contracted with a hydrological engineer and ground water expert, Prof. Ward Motts of the University of Massachusetts geology department, to make a ground-water survey of the Town.

After a systematic survey of the Town, Prof. Motts filed with the Selectmen a typewritten report of his findings. In this report several areas are listed in the order of the likelihood of finding a good ground-water supply on them. The cost of the survey was \$597.75 leaving a balance of \$1191.75 in the water search account.

In 1969 the Selectmen plan to follow-up the recommendations of Prof. Motts' survey and hopefully will be able to pinpoint the area that the Town should start planning on as a future source of water.

Also in 1968 the Selectmen approved the sub-contracting of some of the Chapter 90 construction work on Wachusett Rest Road which allowed the job to be greatly accelerated. At the present time the first section will need only about one week's work after the advent of good, dry weather before it is opened to use. The next layout goes from the center of the "Cathedral Farm Hill" to a point near the home of Lester White. As soon as this entire layout is completed, easements will be sought and construction should proceed quickly in 1969.

Another highway project is being done with Chapter 616 money on the Lombard Road. The Selectmen and Highway Superintendent, James Orcutt, are hopeful that this project can be completed in 1969 which will mean that all of the Lombard Road will be widened, graveled and oiled.

In all our actions the Selectmen have tried to take account of the future needs of the Town. For example, we have caused to be inserted in the warrant for the Annual Town Meeting an Article to allow Hubbardston to join the Montachusett Regional Planning District (not to be confused with the Regional Technical Vocational School) so that the Town can take advantage of Federal projects and the pooling of regional resources.

The Selectmen would like to thank members of the various boards, committees and commissions for the services they have rendered the Town in 1968.

BOARD OF SELECTMEN

REPORT OF THE TOWN COUNSEL

The Town Counsel respectfully presents a brief summary of 1968 legal business. More detailed information is available at any time on any particular subject upon request.

Conferences, Hearings, and Legal Advice in the work of Town Officers and Boards. The Counsel attended conferences and hearings with Officers and Boards of Officers and rendered legal opinions as required, both orally and in writing. The Town Counsel attended the Annual Town Meeting. Investigations were made and documents were drawn when necessary for the Selectmen and for other Town Boards.

Courts. The interests of the Town were protected in 1968 in cases involving the Town in the Superior Court and the District Courts and the Appellate Tax Board.

State Authorities, including the Attorney General and the Director of Accounts. In 1968 the Counsel used a procedure of consulting with State Authorities, such as the Attorney General or the Director of Accounts, before important action was undertaken by the Town Officers in any instance where it appeared that approval of any such State Authority would ultimately be necessary. In this way, the actions of the Town were synchronized with the State.

Legal Situation in 1968. No new actions in Court were instituted by the Town or against the Town in 1968.

One Court case pending against the Town on January 1, 1968 was disposed of during 1968 as follows:

Robert A. Hills Case - Accident on Highway - 1965

This case was completed in the Worcester Superior Court. The Town will not have to pay any damages because this case was won for the Town in the Superior Court.

One (1) Board of Health case involving unhealthful conditions in one residence was completed after Superior Court hearings with the cooperation of the landowner.

Other Matters. There are some unresolved problems involving Planning Board, Board of Health, etc., which it is hoped will be solved without litigation if possible. No large or expensive litigation appears likely in 1969, such as on highway takings, or on tax abatements, due to the careful way the Town Officers have analyzed and treated the town business in 1968.

Respectfully submitted,

John W. Fellows
Town Counsel

REPORT OF THE FINANCE COMMITTEE

The Finance Committee was reorganized on March 11, 1968, agreeing to meet regularly again this year.

Due to a by-law misunderstanding, our newly elected member, Mr. Elwood Taylor, Jr., was unable to assume his post; thereby resigning in favor of other worthwhile town work. In his place, Mr. Paul Stoll was appointed to fill the unexpired term.

Ten transfers were approved during the year, as follows:

Balance in account March 4, 1968 \$5,000.00

Transfers: Bridging and Railings	\$ 43.82
Memorial Day	17.50
Veterans' Benefits	1700.00
Telephone	50.00
Board of Health (dump)	200.00
Accountant	15.70
Street Lights	3.28
Police	109.81
Fire	138.60
Legal	<u>55.81</u>

Balance as of December 31, 1968 \$2,665.48

Once again this year we submit a budget showing the percentage ratio of each category to the total budgeted amount. We hope our voters find this comparison helpful in reviewing the use to which monies are appropriated.

Certain decisions will be approaching the town soon which may help us keep our budget in balance; and we can't emphasize enough the importance of each voter being well informed in all these matters, and being on hand to vote when the time comes.

REPORT OF THE HUBBARDSTON POLICE DEPARTMENT

The following report is hereby submitted on police activities in Hubbardston for the year 1968.

I would like at this time to express the feelings of not only the Police Department and myself, but of the townspeople as well. We all felt a sense of deep loss when Jake Shaffer passed away this past year. A veteran of over 27 years on the Police Department alone, not to mention any of the other departments he served during his life time. If all the public servants of the town could give of their time and efforts as unselfishly as he did, we would have an excellent community.

Actions participated in during 1968:

Summons served	36
Complaints investigated	211
Court cases on motor vehicle violations	15
Criminal court cases in Gardner Court	16
Criminal court cases in Worcester Court	6
Arrests	34
Accidents investigated	27

We had a total of 5,517 miles and a total of 1,140 hours. I would like to add that $129\frac{1}{2}$ hours of that hourly total were spent in court.

POLICE DEPARTMENT BUDGET

Appropriation		\$3,400.00
Transferred from the general fund		<u>109.81</u>
		\$3,509.81
Expenses:		
Out of town phone calls	\$ 206.73

REPORT OF THE CIVIL DEFENSE AGENCY

I hereby submit the annual report of the Hubbardston Civil Defense Agency for the year 1968.

Meetings and drills were attended by your Director from time to time during the past year.

During the year a survey was made of every house in town by Civil Defense of the Federal level as to the protection factor of the building.

Then this was sent back with some plans for the construction of home fallout shelters. At this time I wish to thank the people of Hubbardston for their cooperation and consideration shown the census taker during this survey.

Work is now being done on the 10kw generator to put it into operation at the fire station.

One of the programs for the coming year is to purchase and install a mobile radio in the C.D. truck to be tied in with the Fire Dept.

Civil Defense Equipment

- 1 - 1953 Truck and Equipment
- 1 - Base Station-Base Receiver and Transmitter
- 1 - Typewriter
- 1 - Desk and Filing Cabinet
- 1 - 10kw Generator
- 11 - First Aid Kits

Respectfully submitted,

William J. White
Dir. of Civil Defense

REPORT OF THE DOG OFFICER

I hereby submit my annual report as Dog Officer for the year ending December 31, 1968.

LIBRARIAN'S REPORT

1968 WAS A BUSY, PRODUCTIVE YEAR.

In March we sponsored an Art Exhibit by local talent under the direction of Mrs. Elbert Page. It was well received by over 100 people who viewed it.

In April during National Library Week, the Director of the Narcotics Division of the State Police spoke and showed a film on the subject to an interested audience. On another evening Mr. & Mrs. Douglas Murdock showed and discussed their interesting bottle collection. Also during April Mr. Thayer, Supervisor of Art at Center School, had a one-man showing of his work.

A brass plate commemorating the Lucy Clough Memorial Room was placed on the door leading to that room.

New carpeting was installed in the foyer of the Library Building which gives the area a luxurious look.

A new step-stool for reaching the higher shelves and a new world globe were added during the year.

The regular story and play hours were held Wednesday afternoons during July and August, climaxed by a circus and costume party on the final day. The children continue to enjoy these affairs.

Late in the year the hallway and stair well leading to the Historical Room was painted and refurbished.

We withdrew 420 books which were outdated and several interested patrons donated some excellent volumes.

We borrowed 380 books from the bookmobile and the Regional Office filled our requests for 21 films and 146 special books requested by students.

The National Broadcasting Company sent us 100 records to add to our active record collection.

Our purchases included some of the latest fiction and non-fiction as well as replacements for the balcony reference section.

We wish to thank the staff and students of Center School for their cooperation.

Mrs. Green, Mrs. Coffin and Mrs. Page deserve special thanks for their enthusiasm and support.

The slogan for National Library Week 1969 is 'BE ALL YOU CAN BE READ'. Let's all try to be all we can be and read a little more.

REPORT OF THE INDUSTRIAL COMMISSION

The Industrial Commission held 8 regular meetings and 3 special meetings during the year 1968; Chief amongst which were the Town Officials' night, and an open meeting for all interested citizenry relative to the benefits to be accrued to the town in the event of the formation of an Industrial Development Corporation.

Among the many interesting speakers during the year were Mr. Ken Russell, Mr. Ted Dawkins, Mr. Charles Asher, Mr. Tom Early, Mr. Fred Sallon and Mr. Hurley representing the Commonwealth's Small Business Association.

The Industrial Commission welcomed Mr. Robert Meagher, whose appointment filled the unexpired term of Mr. David Bumpus; Mr. Bumpus' resignation tendered due to increased business activities.

In appreciation of their many hours of work the Board wishes to thank those members whose combined business and other Committees work has resulted in their resignations being submitted in 1968.

Respectfully submitted,

R. J. Anderson, Secretary

REPORT OF THE BOARD OF HEALTH

We respectfully present our report for the year ending December 31, 1968.

There have been forty meetings of the Board this year. Due to having been transferred to Connecticut in his work, Mr. James O'Connor resigned from the Board. We were sorry to have him leave as he is a competent worker and offered many good suggestions on various problems that came to our attention.

We have found our new member, Mr. Peter Thurston, appointed by the Board of Selectmen, also a good industrious worker. It was agreed that Mr. Fred Roberts would continue as Chairman of the Board.

In February the Board was asked to consider using the services of the nurse from the Quabbin Regional School for the health needs of the Elementary School. We felt that the Norworco nurses have given very good care to our pupils in the past and that we would like to have the same care to continue. We are required to pay our share whether or not the Norworco Health Association does the school nursing or not because the Town of Hubbardston entered into an agreement with the other member towns.

A meeting with Mr. Corridon F. Trask, Jr., Mr. Raymond Moore and Mr. Weikko Holopainen of the School Committee and representatives from the Norworco Association was held to discuss the matter.

After an exchange of views from those present and being assured by Mrs. Catherine Brown, R.N. and Miss Norma Smith, R.N. that they are willing and able to devote as much time as needed and also willing to develop a Health Education Service, it was decided that Norworco will continue to take care of the Elementary School pupils.

Three (3) D.P.T. clinics were held in the school at night. These were well attended; 72 children received inoculations in the September clinic; 69 in October at the measles clinic. The Board wishes to remind the Voters that the materials for the immunizations are supplied by the State Board of Public Health and the only charge to the Town is the Doctor's fee. Dr. Aubrey Gould received \$79.00 for the four visits. The nurses from Norworco and Mrs. Vallee assisted Dr. Gould and Mrs. Cleo DiRicco registered the children.

Ten (10) permits to drill wells and twenty-four (24) permits to repair or install new septic systems were issued. Inspections were made by members of the Board as required by the State Sanitary Code. Inspection was made of poultry farms. The restaurant on Route 68 was inspected three times.

We have searched the possibility of leasing land at Comet Pond from the M.D.C. for developing a swimming and recreation area. With the wish of the townspeople the Board of Health will continue with its efforts on this project.

The refuse disposal area is being maintained as a 100% Sanitary Landfill by the Board.

Respectfully submitted,

Catherine Vallee, Clerk

IX. EVALUATION

1. Strengths
 - a. Competent dedicated teaching staff
 - b. Consistent working program in most subject areas,
mathematics, science, social studies, reading,
language arts
 1. New social studies series - revision of Grade
3 - 5 program
 2. Experimentation with Words in Color to supple-
ment Scott Foresman
 3. Strength in language arts due to teacher plan-
ning, not our material
 - a. Anticipate trying structural linguistics
 - c. High esprit de corps among teachers and students.
Community has a feeling for education and is
cooperative with school.
2. Weaknesses
 - a. Very short of audio visual equipment
 1. Every effort is being made to close this gap
 - b. Psychological services non-existent
 1. We have no means to identify or treat severe
problems
 - c. 1967-68 music program unsatisfactory
 1. New personnel hopefully will correct this
 - d. Certain texts becoming out of date
 1. First and Second Readers - will be corrected in
1969
 2. Language books 3 - 6 - already corrected -
September 1968
 3. Science texts - will be corrected in 1969
 4. Social Studies texts 3 - 5 - already correct-
ed - September 1968

- e. Teaching principal - time consumed teaching and with the business of running a school (bookkeeping, ordering, budgeting, discipline, and immediate problems) no real time to devote to long-range curriculum planning.
- f. Physical plant - barely adequate for current needs.
 - 1. Lack of space will limit the program in future years.
 - 2. Need two rooms now - will need up to 5 rooms within 5 years.
- g. No kindergarten - this changes much of our emphasis in first grade

- 2 Tine Test given to teachers
- 2 Negative Tine readings. 2 Certificates issued by the Department of Public Health
- 1 Child attended the Cardiac Clinic

During Physical Examinations and my observation throughout the school year, Dr. Gould and I feel that a great deal more teaching is needed in the following areas:

- 1 -- Posture Very poor in all Grades
- 2 -- Dental Care Poor

Your nurses will be glad to meet with your teachers on any problem, at any time they may request such a conference.

The Committee held twenty-eight regular and special meetings during 1968. Most meetings are held at the Henry Woods Building in Barre, with a few special meetings held at the Quabbin Regional High School. Regular meetings are held on the first and third Mondays of each month and start at 8:00 PM. All meetings are open to the public and agenda can be had by contacting the office of Superintendent. (355-4668)

1968 OVERVIEW OF COMMITTEE ACTIVITIES

"An Investment In Youth", the theme of the Quabbin Regional Junior-Senior High School Dedication Program held on Sunday, April 21, 1968, has a variety of connotations that express the involvement and energy of the Quabbin Regional School Committee.

As the school program emerges beyond the planning stages and becomes fully operational, we find ourselves totally committed to quality education on the one hand and rapidly rising cost of education on the other. What are the limits to which our communities must, can, or desire to go in providing the financial support

for education? How can we engage parents, and citizens in more direct involvement with the school and its programs, so that they can gain a better basis for assisting the Committee in the tough decisions of priorities? These are the ever bearing questions for members of the Committee who find themselves involved in more and more time and energy directed at school programs and affairs. Herein stated briefly are a few of the major areas of involvement with focus-on brevity.

PUNCH LIST COMPLETIONS....Even though the building was occupied in the fall of 1967, we found much time during 1968 devoted to finishing up kinds of details. Several of the major problems were: (a) slow and irregular completion of the athletic fields and grounds (b) low water pressure (3) faulty window glass that need to be replaced in the front of the building (d) delays in the installation of auditorium seating (e) necessity of borrowing additional monies to provide essential equipment needed to operate the school and provide the instructional materials needed. (\$97,000 borrowed on a five year loan)

TEACHER NEGOTIATIONS....Very early in the spring of 1968, the Committee became acutely aware of the meaning and provisions of "Collective Bargaining" as it was legislated by the Commonwealth of Massachusetts in 1965. An average of two evenings per month have been devoted to negotiations with representatives of the Quabbin Teachers Association. Salaries, hours, and other conditions of employment are subject to collective bargaining and it is a credit to both the teachers and the membership of the Committee that a spirited and sincere approach to "bargaining in good faith" has developed. A group now known as the QUEPT Committee (Quabbin United Educational Planning Team), made up of five members from the teachers and five members from the committee meets regularly to discuss and negotiate. An outcome of such meetings has been the fixing of a two-year salary schedule and real progress toward the total agreement dealing with conditions of employment. The salary schedule agreed upon is as follows:

	<u>1969-70 School Year</u>		<u>No. Steps</u>
	<u>Minimum</u>	<u>Maximum</u>	
Bachelors	\$6,100	\$ 8,662	9 (including base)

NEED FOR GREATER INVOLVEMENT OF CITIZENS IN LIFE AT SCHOOL...We express considerable satisfaction in the accomplishments of our school program and our investment in youth is sound. As we continue to work at maintaining the good we have started and improve the features that need improvement, we invite citizens to become more actively involved in the affairs and life of the school. Taxpayers, parents, and other citizens need to gain a better understanding of the programs and practices at the Quabbin Regional High School and the Committee intends to encourage efforts to increase public involvement. The willingness or reluctance to support educational costs today and in the future will depend upon personal convictions that the "Investment in Our Youth" is worth our support."

" WHATEVER SOCIETY COMES TO, the basic ingredient will always be people---their feelings, their aspirations."

QUABBIN REGIONAL HIGH SCHOOL

First Annual Principal's Report

The Quabbin Regional High School opened its doors to the students of the Quabbin Regional District on September 18, 1967. The professional staff had arrived a week earlier to make the necessary preparations for opening day, which had been postponed eight days because of construction delays.

The Workshop Days prior to the opening of school were used to bond an experienced staff to the routines to be established at the Quabbin Regional, and to familiarize the staff to the building and each other. The department heads also spent considerable time with the teachers within their department in preparation of a unified program.

The staff of the Regional numbers a grand total of eighty-four:-- sixty-four professional and twenty non-professional. The professional staff is made up of a principal and one assistant, twelve department heads, three guidance counselors, one nurse, one librarian and forty-five teachers. The non-professional staff includes four secretaries, two study hall monitors, one cafeteria manager, seven cafeteria helpers, five custodians, plus a head custodian.

The anticipated return of the staff for the 1968-69 school year is very gratifying. The professional staff stability is high, with eighty per-cent returning. We also have better than ninety-nine per-cent of the non-professional staff who will be at the Quabbin Regional for the 1968-69 school year. (Not included in the above figures are the Superintendent of Schools, the school physician, and one lay reader.)

The professional staff for this past year was exceptionally strong, and I make this statement in reference to all departments. At the risk of some staff members feeling slighted, which is not intended, I would like to give special recognition to the development of one program and one course -- the development of Linguistics-Transformational Approach to the teaching of grammar, and the organization of the "outdoor classroom" - a course called Conservation. Quabbin is one of the few schools in this state that is playing a leadership role in these areas.

I would also like to make mention of the Drug Abuse and Sex Education programs. They were organized extensively for both the parents and students of the Quabbin District. The Drug Abuse program consisted of three evening

sessions for parents, and ten consecutive one hour programs for the students of Grades 9 through 12. The program on Human Growth and development had one evening session for the parents and was incorporated with the Biology course for about six weeks of intensive study. I am looking forward to having equal success with the development of the Humanities course in 1968-69. This course will be taught by the heads of the English, Art and Music departments. Humanities is one of the three areas where team teaching will take place next year. The other two areas will be in College Preparatory Chem Study and Physical Education.

A number of the Quabbin staff have been scheduled to work during the summer on curriculum research and development. The following work schedule will be followed by the Quabbin staff:

- 1) One week - general curriculum organization by all department heads working simultaneously during the week of June 24.
- 2) Music curriculum planning and development:-this will be a two week workshop with the two members of the Quabbin staff and the three members of the Union #63 staff.
- 3) Social Studies curriculum planning:-this will be one week workshop with the seven members of the Social Studies staff being involved. Purpose: a) to decide what the over-all goals for a dynamic Social Studies program ought to be; b) to consider the validity of the "traditional or extemporaneous" type of teaching versus the "inductive or discovery" approach; c) to accomplish the above through an examination of the latest books on the subjects of the Social Studies "reform" and through a combination of speakers and films.
- 4) Science curriculum work: - work in the Science area is to be done in Chemistry and the new Earth Science. It will be a two week workshop with three persons involved.
- 5) Work will also be done on structuring the Freshman curriculum. This will involve one person for one week.

Students: The student enrollment when the Quabbin Regional High School opened in September was 836, and dropped to 800 as of June. Our daily attendance was higher than the state average as we had 92-86% of the Quabbin students in attendance for the year.

During the course of the year the students organized and became involved in some of the following activities: National Honor Society "Excelsior Chapter" became active around January; the Student Council which had been organized the year before held regular meetings every two

weeks, organized and ran the school store. The Student Council also sold ice cream at lunch, ran a Book Fair, and further detailed their constitution. The Drama Club became active about mid-year and organized a series of one-act plays and put on one major production early in June. The Band and Chorus, although small in number (about thirty students each) were strong on quality. They made their first appearance at the Dedication Ceremony on April 21, and performed remarkably well. Their next undertaking was a Spring Concert to be followed by performing in the Memorial Day services in Barre. The Athletic program opened its fall season with soccer and crosscountry for boys, and field hockey for girls. The winter program consisted of basketball and wrestling for boys, and basketball and cheerleading for girls. The girls had a full softball schedule this Spring, and the boys had baseball, golf and track available to them. We also saw the establishment of a Varsity Club and banquets culminating the sports activities at the end of each season. The above activities functioned with heavy student participation, and credit here must be given to the late bus program.

VI. At the conclusion of the third and sixth week progress reports were mailed home to the parents indicating the students progress in the course.

Things to come: In the very near future I would like to see the development of a Graphic Arts program, and staff expansion, both professional and non-professional. A greater use of team teaching and video-tape will be incorporated into our instructional program as the ground-work here has already been laid. I also recommend that the athletic field be expanded and that tennis, football, and an extensive intramural program be developed.

Summary: In conclusion, this 1967-68 school year has been a real pleasure for me. Having the opportunity of working with Mr. Trask, Superintendent of Schools, a dedicated educator second to none, has been most enjoyable and rewarding.

SCHOOL HEALTH REPORT

The following is the Annual Report of School Health Services, from September 1967 - June 1968, as school nurse of the Quabbin Regional School.

Routine physical examinations for students in grades 7, 9, and 11 were given by A. Dwight Bramble, M.D., School Physician, assisted by the school nurse. Physical examinations were also given to all students participating in sports. Written notices were sent to all parents whose children were found to have any physical defects. There were 504 students who received physical examinations.

Vision, hearing, weighing and measuring examinations were given to all pupils by the school nurse, assisted by two technicians. Re-checks were completed and notices were sent home to the parents of children who failed the test.

Other routine services which were provided during the year were home visits, personal interviews, inspections, first-aid, exclusion of sick children, planning with and assisting the school physician in clinics, conferences, ordering all health supplies, and notifying parents of physical defects.

Reports required by the Massachusetts Department of Health were compiled and submitted as requested.

Summary of School Health Clinics

ANNUAL ATHLETIC REPORT 1967 - 68

Quabbin Regional offered twenty-one team sports for its student body in 1967-68. The program not only offered a variety of activities but a variety of competitive levels for each student.

In the Fall seasons of 1967 & 1968 three levels of soccer and cross-country were offered to the boys; varsity for the upperclass, junior varsity for ninth and tenth graders, and a junior high program.

The girls competed in field hockey on the varsity and junior varsity levels. Over 140 students, including cheerleaders, participated in the fall program.

The winter program afforded 170 students participation in four levels of boys' basketball, varsity, junior varsity, freshmen, and junior high; two levels of girls' basketball; two levels in wrestling; and three levels for cheerleaders.

The spring sports' activities offered competition in varsity golf and varsity and junior varsity levels for boys' baseball, track, and girls' softball for over 150 youngsters.

The annual Fall and Winter Sports Banquets and the Spring Awards Assembly culminated the seasons. Presentation of awards to the outstanding varsity athlete for each sport, the announcement of team captains, and the individual letter awards for excellence in sports were highlights of the affairs. Outstanding coaches from area colleges were invited to be guest speakers at the banquets and to share with us their thoughts on the attributes of sports for young people.

All varsity letter winners were invited to form a Varsity Club. The purpose of the Varsity Club is to promote a better understanding and interest in athletics and to instill a sense of value and pride in Quabbin Regional and its athletic program.

Varsity Club members serve as ushers at all home basketball games and act as greeters for visiting teams upon their arrival at Quabbin.

The Varsity Club sponsored dances and faculty basketball games to raise money to defray expenses for student spectator buses to away games and trips for members to see the Celtics and The Red Sox.

The Interscholastic sports program has been participated in by over 700 students during the 1967-68 season; who we feel, have greatly enhanced their values for fair play and sportmanship through our beginning.

REPORT OF THE SUPERINTENDENT OF SCHOOLS
 MASSACHUSETTS SCHOOL UNION #63
 Barre, Hardwick, Hubbardston, and Oakham

The officers of Massachusetts School Union #63 for the 1968 year, elected at the spring meeting of April 8, 1968 are:

Chairman	Mr. Walter Flister, Barre
Vice-Chairman	Mr. Robert Tefft, Hardwick
Secretary	Mrs. Mary Parsons, Oakham
Clerk	Mrs. Janice C. Higgins, Barre

This second annual report as Superintendent of Union #63 will be brief with focus on highlights of programs and activities that have received attention and illustrate priority of emphasis during the year. The nature of our elementary school organization makes it imperative that local principal's reports be considered the sources for details of events within our separate school systems.

Throughout the systems of the four towns the following comments have application:

1. We are generating much stronger emphasis on the early identification of serious learning problems. Teachers throughout the Union are to be highly commended for their efforts to increase their knowledge of new research dealing with the diagnosis of learning problems that interfere with good progress in schoolwork. Recent promotion by the State Department of Education in the fields of "Perceptually Handicapped", "Emotionally Disturbed", "Speech and Hearing Handicaps" has received our attention, yet we admit that our efforts need to be increased considerably.

2. We are increasing our efforts to bring parents of "early elementary" school children into closer contact with school teachers and the school programs involving their children. The changes made from report cards to conferences is working well and we feel that both parents and teachers are benefiting from the more intimate contacts.

3. Music in our elementary school programs has taken on new and exciting interest. We are particularly fortunate to have a top flight staff of music teachers. The entire staff (five teachers) worked during the summer on improving the curriculum for all grades K-12 and the results of this work and the highly cooperative spirit amongst the staff has generated interest and participation beyond our expectations. The instrumental programs have mushroomed in both quantity and quality.

4. This year, for the first time, we have an organized physical education program in all four towns, with two well qualified teachers working well with both boys and girls at all grade levels. Even though we lack proper shower and locker facilities, we are conducting a very respectable program. We have seen particularly good programs blossom in skiing and intramural game sports under the enthusiastic promotion of our elementary Physical Education coordinator.

5. The shift in our nursing and health services, to heavy concentration on early examinations and thorough follow through with parents and specialized medical sources in all cases where physical or medical problems appear, has been noteworthy and needs even greater support in the future. We find so many times that the cooperative involvement of nurse, teachers, parents, doctors, and other agencies causes remarkable changes to take place in children who appear to be slow at learning, but in fact have significant physical or perceptual problems that can be corrected and/or compensated for.

6. During the summer of 1968, we experienced a particularly good federally supported program under Title I. Mr. John Cirelli, director of the project, deserves particular praise for his efforts and skills in making the program the success that it was. All four towns combined to have special summer instruction for children of the four towns in grades 1-3 who needed additional work with reading skills and arithmetic skills. The program also included recreational activities which appealed to the children.

7. The 1968 year could well be called the year of "negotiations" as a considerable amount of time was spent planning, researching, and conducting sessions of negotiations with teachers. It is noteworthy, however, that our elementary school teachers have approached the new management-labor relations in a most wholesome way. Unlike some communities involved in collective bargaining, the respect and fairness of both teachers and members of the various School Committees has shortened the time involved, and has generated a foundation for good future bargaining. Members of the Committees can well attest to the marked increase in responsibility and time associated with negotiations.

8. Regionalization K-12 has been studied seriously by a special committee established by vote of each member town. Mr. Richard Lyon, of Hubbardston, was elected chairman of the joint committee which anticipates proposing an amendment to the present agreement which included grades 7-12 as a region. Very obvious, to all

members of the study committee, is the need to write into any agreement the conditions necessary to keep control of elementary education at the local level.

9. We are just beginning to sense the significant contributions that new technology has to offer to the field of education. Although some of the equipment and materials seem costly as initial investments, the contributions to increasing learning made it imperative that we examine and try video-tape recorders, cassette tape recorders, language masters, overhead projectors, teaching machines of various kinds, and what is becoming known as "learning packages". Industry is now in full gear with their concern for providing multi-learning devices. We are, likewise, combining interest in technology with interest in using teacher aides and/or so called paraprofessionals to supplement the work of classroom teachers. The spiralling upward of professional teacher salaries makes it mandatory that we consider alternatives to the highly expensive pattern of assigning one professional teacher to twenty or twenty-five children. Perhaps we can combine teachers, technology, and teacher aides in a pattern that will bring good teachers into contact with more students, doing a better job of teaching with help, and doing it with less overall expense. This is a challenge we face today in education.

The accompanying report from principal and other staff members provides more specific information about local school programs.

Respectfully submitted,

Corridon F. Trask, Jr.

MONTACHUSETT REGIONAL VOCATIONAL TECH. SCHOOL DISTRICT

Annual Report for the year ending December 31, 1968

This report is intended to summarize the development and progress of the Montachusett Regional Vocational Technical School District to date. The District comprises the following two cities and nine towns:

Ashburnham	Fitchburg	Lunenburg
Ashby	Gardner	Royalston
Barre	Harvard	Sterling
Hubbardston		Winchendon

On May 22nd, an initial Bond Issue request was presented to the communities in the District and the following were the results: City Council in Fitchburg and Gardner approved; Barre approved 77-41; Ashburnham disapproved by 85-83; two votes. Sterling voted approximately two to one for approval and the remaining towns chose not to call a town meeting, thus approving. When a town disapproves, that request for the Bond Issue is nullified.

At the second request voted by the School Committee on June 24th, only two towns had meetings, with Fitchburg and Gardner unanimously approving via Council action. This time, however, Ashburnham, at a large town meeting very strongly endorsed the school. However, Barre defeated the Bond Issue vote by 128-99; 29 votes.

The third request was made by the School Committee on October 23rd. At this vote, Barre approved and the only other town having a Town Meeting, Ashburnham disapproved by a vote of 158 for and 196 against; thus defeating the Bond Issue request by 38 votes.

Early in September, a special meeting of our area Legislators was held in the School Committee office, and it was agreed that there would be bi-partisan introduction into both houses of the Legislature of a bill that will make it possible for initial construction; this permitting the other communities to continue participating in the plans for the construction of the regional vocational-technical school. In addition, it was agreed that our legislators would support a bill to modify existing legislation to make more equitable State grants for construction to the Regional school. Hence, in December, legislation was introduced that would allow the School District Committee to vote out Ashburnham after their defeat of the Bond Issue authorization and after their request to leave the District without having another round of town meetings, thus permitting the Montachusett Regional District (with the approval of the

Emergency Finance Board) to issue the \$6,500,000 Bonds. If this legislation can become a reality early in 1969, then there exists the possibility of maintaining the original schedule to open in the Fall of 1970.

During this same period, endorsements for the school have been received from Unions, industrial, civic and religious organizations. Fifteen Craft Committees were organized, representing 103 industrial establishments and Unions, consisting of 204 participants. Their activities were demonstrated at the Annual Advisory Committee dinner held in October. The purpose was to illustrate the structural relationship between the Craft Committee and the School Committee; to apprise the School Committee of the role of the Craft Committee and recommendations with regard to shop, laboratory planning, equipment, scope and content of the craft courses, as it applies to local industry.

Since the purchase of our site on Route 2-A, near the 140 and Route 2 interchanges, in December of 1967, most of our efforts have been concentrated on the school design and passage of our Bond Issue request. Prior to submitting our request for the first Bond Issue authorization, our School Committee had extensive changes made in the design to reduce the cost. The effort on the part of our School Committee was to create a school housing 1000 day school students and 2000 adults, afternoons and evenings, but to develop these facilities so that the most modern teaching techniques could be utilized in teaching academic as well as career programs. In May, as the result of the approval of the Bureau of School Building Assistance of our Educational Specifications and our preliminary drawings, the School Committee authorized a debt for construction of \$6,500,000 to be funded by the sale of bonds.

September, the School District Committee announced that they had received a confirmation from Walter J. Markham, the Director of the Bureau of Vocational Education, that the District will receive about \$380,000 more in Federal Funds for construction and equipment than originally estimated. This will increase the Federal aid total to \$850,000. In addition, our estimated planning costs of \$209,055 is fully reimbursable. Thus, bringing the total construction reimbursements to \$1,059,055. These funds will be used during construction. The above does not include the School Building Assistance Bureau grant of 40% that will be pro-rated 1/20th per year during the life of the Bond.

In taking over the program of the School of Licensed Practical Nurses of the Burbank Hospital, our School Committee was cognizant of making it possible for more

local youths and adults to participate in the program. To this end, discussions began in May, and as a result of a pilot project grant, we can now provide this service free of charge to the students, and at no cost to the community. Thus, we are fulfilling a part of our function now. This has been possible through funding, as of September 1st, through Federal funds (George Barden Title 1, 2 and 3 for \$60,908 for the school year 68-69 renewable until the program will be moved into the Regional School facilities in 1970). Recruiting and instruction continues to be the function of the present supervisor and staff. The school will continue unabated, except that additional educational consultant service will be furnished. Special emphasis is being placed on the cooperative roll between the Burbank Hospital and the Montachusett School District. Applicants who are eligible, high school seniors and high school graduates, who reside in the Montachusett School District, may attend the LPN School without any tuition charge. Applicants are urged to contact the Regional School District office. It is hoped that as a result of proven need and additional funding, we can develop additional pilot projects in other occupational areas.

At the 63rd Committee Meeting on November 26th, the School Committee adopted an Operating Budget of \$68,165.00 and a Capital Account Budget of \$1500.00. The anticipated revenue from the Federal government for salaries is \$8,000.00. The budget reflects additional accounts and costs that will become expenditures only in preparation for construction, after the passage of the Bond Issue authorization. But it does not reflect funds received for the LPN pilot project. At the request of the State Department of Education, these funds will be held in a separate special account.

During the past year, the School Committee members have labored with dedication to create an educational institution that will have both an economic and social impact on the industries, adults and youth of the Montachusett Region.
